

Account Information

If you want an accurate record of your MYM transfers between accounts, you will need to enter your account names exactly as they appear in MYM. To add an account name, enter the name in the Account name field. Then, click Add. To modify an existing account name, click on the name in the Accounts list and then edit it in the Account name field. Click Replace to save the changes. If you want to delete an account name, select the name in the field and then click Delete. When you are done, click Save.
