

About SmartDisk Tri-Media Reader

Version 1.0.1 for Mac OS X 10.1 and Newer

This version of the SmartDisk Tri-Media Reader drivers is designed for use under Mac OS X 10.1 and newer. SmartDisk recommends that users of older versions of Mac OS X upgrade to at least version 10.1 before using this software.

Known issues

Some computers are unable to provide sufficient power to use all three media slots simultaneously. SmartDisk recommends that you use no more than two media slots at the same time.
