Test file for hyperref and color.

Contents

1   HyperTEX tests

1.1   A subsection

See color section 2.

1.2   Yet another subsection

See background section on page 6.

Here's some nasty links and targets.

subsection.1.2This link has a t1target in the middle. Note that an extra space occurs after the target; this can be removed by using hyperref's "nesting" option.

t2This target has a subsection.1.2link in the middle.

Links   of   different   sizes: _{subsection.1.2[tiny]}

subsection.1.2[huge]

=20pt=3 Here's a link that spans a line break: this link has no targetThis is a very very very very very very very very very very long link. And here's an even longer link: this link has no targetThis is a very very very very very very very very very very very very very very very very very very very very very very very very very very very very very very very very very very very very very very very very very very very very very very very very very very very very very very long link.

And here's a link that spans a page break: html:This link continues...

... this link starts on the previous page, so is ignored.html:

2   Color tests

Note that colored text is not dithered (nor are colored links).

This sentence should be black. This should be red. This should be green.

Black. Blue. Cyan. Magenta. Yellow. Back to Magenta. Back to Cyan. Back to Blue. Back to black.

ltgraygray0.8   dkgraygray0.2   purplergb.5,0,.5   weird1cmyk.5,.4,.3,.2 weird2hsb.7,.8,.9   Light gray.   Dark gray.   Purple.   No idea what this color is!   Nor this.

redBlack text on a red background.

redyellowBlack text on a yellow background with red frame.

Now let's test the use of color names defined in `color.pro`:
color   push   GreenYellowGreenYellowcolor   pop   color   push YellowYellowcolor pop color push GoldenrodGoldenrodcolor pop color   push   DandelionDandelioncolor   pop   color   push ApricotApricotcolor pop color push PeachPeachcolor pop color push MelonMeloncolor pop color push YellowOrangeYellowOrangecolor pop   color   push   OrangeOrangecolor   pop   color   push BurntOrangeBurntOrangecolor   pop   color   push BittersweetBittersweetcolor   pop   color   push RedOrangeRedOrangecolor pop color push MahoganyMahoganycolor pop   color   push   MaroonMarooncolor   pop   color   push BrickRedBrickRedcolor pop color push RedRedcolor pop color push OrangeRedOrangeRedcolor pop color push RubineRedRubineRedcolor pop color push WildStrawberryWildStrawberrycolor pop color push

The text on the rest of the page is blue (but not the page number).

3   Background tests

red yellow The background for this page should be yellow.

Text should still be blue.

Back to black.

The background should still be yellow.

This page is deliberately...   ...off the paper.

black
