Travis Anton - Product Design

Features, function, and all things practical plus some that were just plain vain like this flashy splash screen.

Richard Anton - Architecture

Forcing order upon chaos and making the impossible possible, maker of the ritualistic hardware sacrifice.

Kevin Etheridge - Core Algorithms

Did the math to make the magic happen. He can solve differential Calculus equations in his head. It's really scary.

Danny Lowe - Macintosh Interface

At one with the Dialog Manager in perfect harmony with the Toolbox, the last long haired hippie freak at BoxTop.

Daniel Williams - Windows Interface

Silently out to win the Windows world. Bill would be proud.

And special thanks to Ed Sultan at invisible, ink. for the cool new look and Daniel Thomas at MWB Interactive for all the BoxTop Tool animations, you can't buy those babies in hardware stores.
