

Thank you for trying PhotoGIF Filter™!

PhotoGIF Filter™ is the universal power tool from the new third generation PhotoGIF Series™. Designed as a filter plug-in, PhotoGIF Filter™ extends the award winning Web-graphics production power of PhotoGIF™ to all image editing applications supporting Photoshop 2.5 or greater filter plug-ins. PhotoGIF™ isn't just for Photoshop any more.

The new cross-platform PhotoGIF Series™ plug-ins means PhotoGIF™ is accessible to very nearly everyone, no matter what image editing application or platform you use to make Web graphics. When 'Web-ready' isn't good enough, PhotoGIF™ provides the 'Web-mastery' you need.

The second generation of PhotoGIF™ was named a '96 MacUser Eddy Award Finalist in the Best New Production Tool class and rated 4 1/2 Mice by MacUser - without question great stuff, but the PhotoGIF Series™ blows it away. The best has gotten exponentially better.

New for PhotoGIF Filter™ 1.0:

- Compatible with many applications
- Fully interactive color reduction
- Base palette color protection
- Live file size display
- GIF comments support
- Automatic image tags in Finder comments
- Resource forks are automatically striped
- Direct palette editing
- Dialogs remember last used settings
- Previews palettes before importing
- Saves lists of background colors
- Zoom-able preview
- More intuitive and streamlined interface
- Improved image quality
- Improved compression
- Improved transparency tools
