

Notes, Cautions, Tips, Etc.:

Macros:

If you have QuicKeys or a similar macro program, you can simplify the process of answering the phone and clicking the Use Phone button by defining a sequence to bring Keep Trying! to the front (via the Application Menu) and then entering a <Return> keystroke. Assign this sequence to an F-Key, and when the called party answers, just pick up the phone and press the F-Key.

Be Reasonable...

The two "try again" settings in KT's main window will accept any value down to "00 minutes and 00 seconds". However, KT is not guaranteed to work correctly if these settings are given extremely low values. Exactly how short you can make the "try again" delays will depend on the behavior of your modem and phone line. In general, delays less than 15 seconds aren't recommended. Use reasonable values and everything will work fine.

My Web site:

You can find other fine shareware and freeware programs written by me on my Web site, located at:
<http://users.aol.com/karlbunker/>

Shareware distributors:

You may put Keep Trying! in your CD-ROM, Disk of the Month, Web Page, shareware catalog, etc., etc. Keep Trying! may be distributed by any means, as long as you don't modify it or charge customers some unreasonable sum for it, and providing this manual accompanies it.

Legal Disclaimers:

Karl Bunker and Larry Lloyd hereby disclaim all warranties relating to this software, whether express or implied, including without limitation any implied warranties of merchantability or fitness for a particular purpose. Karl Bunker and Larry Lloyd will not be liable for any special, incidental, consequential, indirect or similar damages due to loss of data or income or any other reason, even if Karl Bunker or Larry Lloyd or an agent of theirs has been advised of the possibility of such damages. In no event shall Karl Bunker or Larry Lloyd be liable for any damages, regardless of the form of the claim. The person using the software bears all risk as to the quality and performance of the software.

Some uses of this program may be illegal in your state or country. Karl Bunker and/or Larry Lloyd assume no responsibility for its use. It is the responsibility of the end user to verify that Keep Trying!'s use complies with all applicable federal, state or local laws and telephone company regulations.
