

THE UNIVERSE OF DREW by Drew Henry

The first thing for you to do within THE UNIVERSE is to get yourself a job. Lucky for you, your occupation has already been chosen for you. Your mission is to find out what it is.

To complete your appointed task, you will need to make use of the data sort command. If you complete your mission properly you will discover your occupation by reading down the left side of the screen (by paging down).

If you need to start over at any time, or if you want me to show you how to do it, press [Alt] [A]. Select "Let Me Try" to begin the adventure. ([F1] gives help.)
