

## **Introduction**

MIDI JukeBox 2 allows you to select and play multiple MIDI and/or .WAV files. Files can be selected with the Open command, by using the File Manager's drag-and-drop feature, or by associating files with MIDI JukeBox 2.

Files can be played once or in a continuous loop.

## **Required Hardware and Software**

MIDI JukeBox 2 requires Microsoft Windows 4.0, NT, or Win32s and a compatible MIDI output device. MIDI JukeBox 2 supports the SoundBlaster Pro.

## **Installing MIDI JukeBox 2**

Run `SETUP.EXE` from Windows.

## **Running MIDI JukeBox 2**

After starting the program, if you need further instructions, press F1 for help.

## **Distribution and Payment**

MIDI JukeBox 2 may be freely copied without cost, provided it is not changed in any way. If you find the program useful, please send \$10.00 to:
