

On An Empty Stomach

Welcome to Chapter One

What EMPTY Really Feels Like

Have you ever gotten that empty feeling inside? The kind of empty feeling that won't let you destroy interstellar invaders with gusto and a witty saying? Well, now you have EMPTY. If we're empty, you're full. Take from us, and be fulfilled. And all that other stuff...

EMPTY Us, Fill Up You

This little cheat of a cheat gives you a whole bunch of missiles in the game, "Eat My Photons." Just give this application a turbo boost in the mouse click and select your spacey little save game file. When you arrive at your battle position, you will find yourself with a whole bunch of power, and a sore fire button finger.

Oh, No! We've Run Out Again!

After about 6 levels, you will go back to the default amount of missiles, or, you will have less than the amount of missiles. So what! Just come back to us and get yourself another refill. Yes, Bridget! REFILLS ARE FREE! AND TAKE AS MUCH AS YOU WANT. (Just use all you take.)
