The Shareware Concept

Software Manager is being distributed under the shareware concept. There are many advantages to using this method of distribution, some of which are:

- o People can try programs before paying for them to determine if they are useful to their needs.
- o Software authors can be supported directly by the users, which keeps software costs down.

You are granted the right to use this program for a trial period of thirty (30) days, at which time you must either stop using the program, or pay the registration fee of US \$19.98
