Rail Icons 1.5

If you like this product and would like to see me produce more of the same, please pay the shareware fees to let me know.

PLEASE SEND ME ANY RAIL ICONS YOU GENERATE, I would love to include them in the collection.

What you should see:

They mean what they say when they say things like, "Contents may settle during shipping". In other words, the icons might be all jumbled by the time you see them. With a little bit of fine tuning and a steady hand, you can put things right. Just follow this simple road map:

How to use the icons:

You can attach these icons to your folders, disks, etc., and make your desktop a better place to live. To copy an icon:

1) select an icon,

2) "Get Info" (in the "File" menu of the finder),

3) select the icon in the info window,

4) "Copy" (in the "Edit" menu of the finder),

5) select destination folder, disk, etc.

6) "Get Info"

7) select the icon in the upper left hand corner of the info window

8) "Paste" (in the "Edit" menu)

Now for the "asking for money" bit, AKA, this is shareware:

You are free to use (play with, throw at the cat, etc.) these icons for one week after receiving it. If you like it and decide to keep it, you should send a $10 "shareware" fee to myself at the address below. Please include a brief note describing where you got these icons, what you like about them, and what you would like to see added.

If you just have to have the full collection of my train toys (my big thing is fonts, see below), send two FORMATTED disks and a SELF ADDRESSED STAMPED ENVELOPE to the address below. (I hate to format disks)

If you are honestly poor, (i.e., you ain't gonna support the American way and my education) please send a post card (the weirder the better) describing where you got these icons, what you like about them and what you would like to see added.

Give it to your friends, Rail Icons make a great Birthday gift (grin):

You are free to distribute these icons (and other resources), as long as you include this READ ME file and the "Product Ad" with any icons you distribute.

What do you have? What would like to see?

If you have any train icons of your own, send them to me and I will include them in the next release of the collection. Also, if you have a favorite railroad that you would like to see an icon for, drop me a note and I will try to make it for you.

Now Showing:

If you like these icons, just wait 'till you see my railroad fonts. I have released several resolution railroad picture fonts. For example, with the Freight font, if you type "qaz" you get a locomotive-boxcar-caboose.

RAILROAD ROMAN

I have also started doing typefaces (e.g., Railroad Roman) and heralds. I have a number of other products in the works. You should find another file in this package

telling all about my other shareware products. If not, feel free to mail two formatted disks and a self addressed stamped envelope to me and I will fill it up and return it.
