

Sheet1

Date	Time	Swap Init	Swap Curr	Swap Max	Swap Drive	Swap Drive Space
------	------	-----------	-----------	----------	------------	------------------

Sheet1

Max bytes in a path name. Max text sessions. Max PM sessions. Max DOS sessions. Boot Drive.

Sheet1

Priority 0-absolute 1-dynamic. Max wait seconds. Min time slice milliseconds.

Sheet1

Max time slice milliseconds. Memory page size bytes. Major version. Minor version. Revision number.

Sheet1

Milliseconds since boot. Low 32 bits of clock. High 32 bits of clock. Physical memory.

Sheet1

Resident memory. Estimated available memory. Estimated Max process memory.

Sheet1

Estimated Max shared memory. Timer interval in milliseconds / 10. Max length of a path name component.

Sheet1

ID of current foreground full-screen. Process ID of current foreground.

Number of processors in the machine.
