<b>About the Selected World Wide Web listing:</b>	
I am a beginner to the WWW, and I wanted to keep a look aside 'scratch pad' of the WWW sites I have seen and want to see. I decided that a spreadsheet was the best way to have a scratch pad, since I could sort, index, and cut/paste addresses between cells and the Goto field of the Warp Internet access kit WWW browser.	
I hope that you find this list of use. Please let me know what you think of it.	
I can be reached on the Internet on <a href="mailto:teixem@ibm.net">teixem@ibm.net</a>	
or on CompuServe at 71045,524	
or on IBMMAIL at USOTC666.
