## File menu commands

The File menu offers the following commands:

<u>New</u>	Creates a new Tracking List.
<u>Open</u>	Opens an existing Tracking List.
<u>Save</u>	Saves an opened Tracking List using the same file name.
<u>Save As</u>	Saves an opened Tracking List to a specified file name.
<u>Print</u>	Displays full pages as they will be printed.
<u>Preview</u>	
<u>Print</u>	Prints the active Tracking List.
<u>Password</u>	Change the password to protect access to your Tracking List.
<u>Options</u>	Change the options of your Tracking List.
<u>Exit</u>	Exits Password Tracker Deluxe.

## Edit menu commands

The Edit menu offers the following commands:

<u>Add</u>	Adds a new P-Track.
<u>Delete</u>	Delete the selected P-Tracks.
<u>Properties</u>	Edit the selected P-Track's properties.
<u>Notes</u>	Edit the selected P-Track's notes.
<u>Send</u>	Send the selected user id and/or password to the program.
<u>Scan For Playback Windows</u>	Scan the foreground windows for playback windows.

## View menu commands

The View menu offers the following commands:

<u>User IDs</u>	Shows or hides the display of the user ids.
<u>Shortcuts</u>	Shows or hides the display of the shortcuts.
<u>Passwords</u>	Shows or hides the display of the passwords.
<u>Notes</u>	Shows or hides the display of the notes.
<u>Toolbar</u>	Shows or hides the toolbar.
<u>Status Bar</u>	Shows or hides the status bar.

## Help menu commands

The Help menu offers the following commands, which provide you assistance with this application:

<a href="#"><u>Help Topics</u></a>	Offers you an index to topics on which you can get help.
<a href="#"><u>Welcome</u></a>	Read the Password Tracker Deluxe welcoming message.
<a href="#"><u>Use Wizards</u></a>	Use wizards to help with Tracking Lists and P-Tracks.
<a href="#"><u>Registration</u></a>	Register your copy of Password Tracker Deluxe.
<a href="#"><u>About</u></a>	Display program information, version number and copyright.

## New command (File menu)

Use this command to create a new Tracking List in Password Tracker Deluxe.

If you have the Use Wizards option selected, the Tracking List Wizard will guide you through creating a new Tracking List.

You can open an existing Tracking List with the Open command.

### Shortcuts

Toolbar:

Keys:

CTRL+N

## Open command (File menu)

Use this command to open an existing Tracking List.

You can create a new Tracking List with the New command.

### Shortcuts

Toolbar:

Keys:

CTRL+O

## **File Open dialog box**

The following options allow you to specify which file to open:

### **File Name**

Type or select the filename you want to open. This box lists files with the extension you select in the List Files of Type box.

### **List Files of Type**

Select the type of file you want to open:

\*.PWT Password Tracker Deluxe files.

### **Drives**

Select the drive in which Password Tracker Deluxe stores the file that you want to open.

### **Directories**

Select the directory in which Password Tracker Deluxe stores the file that you want to open.

### **Network...**

Choose this button to connect to a network location, assigning it a new drive letter.

## Save command (File menu)

Use this command to save the active Tracking List to its current name and directory. When you save a Tracking List for the first time, Password Tracker Deluxe displays the Save As dialog box so you can name your Tracking List. If you want to change the name and directory of an existing Tracking List before you save it, choose the Save As command.

### Shortcuts

Toolbar:

Keys:

CTRL+S

## **Save As command (File menu)**

Use this command to save and name the active Tracking List. Password Tracker Deluxe displays the Save As dialog box so you can name your Tracking List.

To save a Tracking List with its existing name and directory, use the Save command.

## **File Save As dialog box**

The following options allow you to specify the name and location of the file you're about to save:

### **File Name**

Type a new filename to save a Tracking List with a different name. A filename can contain up to 250 characters. Password Tracker Deluxe adds the extension ".pwt".

### **Drives**

Select the drive in which you want to store the Tracking List.

### **Directories**

Select the directory in which you want to store the Tracking List.

### **Network...**

Choose this button to connect to a network location, assigning it a new drive letter.

## **1, 2, 3, 4 command (File menu)**

Use the numbers and filenames listed at the bottom of the File menu to open the last four Tracking Lists you closed. Choose the number that corresponds with the Tracking List you want to open.

## **Exit command (File menu)**

Use this command to end your Password Tracker Deluxe session. You can also use the Close command on the application Control menu. Password Tracker Deluxe prompts you to save untitled Tracking Lists. Changes to a Tracking List are automatically saved.

A dialog box will confirm exiting Password Tracker Deluxe. It is recommended to minimize Password Tracker Deluxe so your passwords are quickly accessible.

### **Shortcuts**

Mouse: Double-click the application's Control menu button.

Keys: ALT+F4

## **Toolbar command (View menu)**

Use this command to display and hide the Toolbar, which includes buttons for some of the most common commands in Password Tracker Deluxe, such as File Open. A check mark appears next to the menu item when the Toolbar is displayed.

See [Toolbar](#) for help on using the toolbar.

## Toolbar

The toolbar is displayed across the top of the application window, below the menu bar. The toolbar provides quick mouse access to many tools used in Password Tracker Deluxe,

To hide or display the Toolbar, choose Toolbar from the View menu (ALT, V, T).

### Click To

---

Create a new Tracking List.

Open an existing Tracking List. Password Tracker Deluxe displays the Open dialog box, in which you can locate and open the desired file.

Save the active Tracking List with its current name. If you have not named the Tracking List, Password Tracker Deluxe displays the Save As dialog box.

Print the active Tracking List directly to the printer using the current defaults.

Send the selected user ID and password to the program.

Adds a new password.

Edit the selected password properties.

Displays the version number of this application.

Display help for clicked on buttons, menus and windows.

## **Status Bar command (View menu)**

Use this command to display and hide the Status Bar, which describes the action to be executed by the selected menu item or depressed toolbar button, and keyboard latch state. A check mark appears next to the menu item when the Status Bar is displayed.

See [Status Bar](#) for help on using the status bar.

## Status Bar

The status bar is displayed at the bottom of the Password Tracker Deluxe window. To display or hide the status bar, use the Status Bar command in the View menu.

The left area of the status bar describes actions of menu items as you use the arrow keys to navigate through menus. This area similarly shows messages that describe the actions of toolbar buttons as you depress them, before releasing them. If after viewing the description of the toolbar button command you wish not to execute the command, then release the mouse button while the pointer is off the toolbar button.

The right areas of the status bar indicate which of the following keys are latched down:

<b>Indicator</b>	<b>Description</b>
CAP	The Caps Lock key is latched down.
NUM	The Num Lock key is latched down.
SCRL	The Scroll Lock key is latched down.

## About command (Help menu)

Use this command to display the copyright notice and version number of your copy of Password Tracker Deluxe.

### Shortcut

Toolbar:

## Context Help command

Use the Context Help command to obtain help on some portion of Password Tracker Deluxe. When you choose the Toolbar's Context Help button, the mouse pointer will change to an arrow and question mark. Then click somewhere in the Password Tracker Deluxe window, such as another Toolbar button. The Help topic will be shown for the item you clicked.

### Shortcuts

Toolbar:

Keys:

SHIFT+F1

## Title Bar

The title bar is located along the top of a window. It contains the name of the application and document.

To move the window, drag the title bar. Note: You can also move dialog boxes by dragging their title bars.

A title bar may contain the following elements:

- Application Control-menu button
- Document Control-menu button
-  Maximize button
-  Minimize button
-  Name of the application
-  Name of the document
-  Restore button

## **Scroll bars**

Displayed at the right and bottom edges of the document window. The scroll boxes inside the scroll bars indicate your vertical and horizontal location in the document. You can use the mouse to scroll to other parts of the document.

## Size command (System menu)

Use this command to display a four-headed arrow so you can size the active window with the arrow keys.

After the pointer changes to the four-headed arrow:

1. Press one of the DIRECTION keys (left, right, up, or down arrow key) to move the pointer to the border you want to move.
2. Press a DIRECTION key to move the border.
3. Press ENTER when the window is the size you want.

Note: This command is unavailable if you maximize the window.

### Shortcut

Mouse: Drag the size bars at the corners or edges of the window.

## Move command (Control menu)

Use this command to display a four-headed arrow so you can move the active window or dialog box with the arrow keys.

Note: This command is unavailable if you maximize the window.

## **Minimize command (application Control menu)**

Use this command to reduce the Password Tracker Deluxe window to an icon.

### **Shortcut**

Mouse: Click the minimize icon  on the title bar.

## Maximize command (System menu)

Use this command to enlarge the active window to fill the available space.

### Shortcut

Mouse: Click the maximize icon  on the title bar; or double-click the title bar.

## **Close command (Control menus)**

Use this command to close the active window or dialog box.

Double-clicking a Control-menu box is the same as choosing the Close command.

### **Shortcut**

Keys: ALT+F4 closes the Password Tracker Deluxe window or dialog box.

## **Restore command (Control menu)**

Use this command to return the active window to its size and position before you chose the Maximize or Minimize command.

## **Switch to command (application Control menu)**

Use this command to display a list of all open applications. Use this "Task List" to switch to or close an application on the list.

### **Shortcut**

Keys: CTRL+ESC

### **Dialog Box Options**

When you choose the Switch To command, you will be presented with a dialog box with the following options:

#### **Task List**

Select the application you want to switch to or close.

#### **Switch To**

Makes the selected application active.

#### **End Task**

Closes the selected application.

#### **Cancel**

Closes the Task List box.

#### **Cascade**

Arranges open applications so they overlap and you can see each title bar. This option does not affect applications reduced to icons.

#### **Tile**

Arranges open applications into windows that do not overlap. This option does not affect applications reduced to icons.

#### **Arrange Icons**

Arranges the icons of all minimized applications across the bottom of the screen.

## Modifying The Tracking List

Use the commands on the Edit menu to add, edit or delete P-Tracks on your Tracking List.

## **No Help Available**

No help is available for this area of the window.

## **No Help Available**

No help is available for this message box.

To close this dialog box and save any changes you've made, click OK.

To close this dialog box without saving any changes you've made, click Cancel.

Enter the password.

Enter the old password.

Enter a new password. If blank, password protection of the Tracking List will be disabled.

Re-enter the new password to verify that it was typed correctly.

If checked, the Tracking List password is required to send the keystrokes to a program.

If checked, the passwords will never expire.

The number of days the passwords will expire in.

Use the up and down arrows to adjust the number of days the passwords will expire in.

Enter the sequence of keystrokes to send to the program.

To close Password Tracker Deluxe, click Exit.

To return back to Password Tracker Deluxe, click Cancel.

To minimize Password Tracker Deluxe, click Minimize.

Enter the name of the person registering the program.

Enter your valid registration number.

To read the on-line Registration Information, click [Registration Information](#).

To read the help for the special send keystroke codes, click [Special Codes Help](#).

To add a new word to the list, click Add.

To generate a complex password, choose Complex.

To delete the selected word, click Delete.

List of words used to generate a simple or complex password.

The generated password.

To generate a password consisting of random letters and numbers, choose Random Letters and Numbers.

To generate a simple password, choose Simple.

To modify the list of words used to generate a simple and complex password, click [Word List](#).

To find the class name of a control, click Get Control Class Name. Then, select the control with the left mouse key.

## Print command (File menu)

Use this command to print a Tracking List. This command presents a Print dialog box, where you may specify the range of pages to be printed, the number of copies, the destination printer, and other printer setup options.

Note: The toolbar button prints directly to the printer using the current defaults.

### Shortcuts

Toolbar:

Keys: CTRL+P

## Print dialog box

The following options allow you to specify how the Tracking List should be printed:

### Printer

This is the active printer and printer connection. Choose the Setup option to change the printer and printer connection.

### Setup

Displays a [Print Setup dialog box](#), so you can select a printer and printer connection.

### Print Range

Specify the pages you want to print:

**All** Prints the entire Tracking List.

**Pages** Prints the range of pages you specify in the From and To boxes.

### Copies

Specify the number of copies you want to print for the above page range.

### Collate Copies

Prints copies in page number order, instead of separated multiple copies of each page.

### Print Quality

Select the quality of the printing. Generally, lower quality printing takes less time to produce.

## **Print Progress Dialog**

The Printing dialog box is shown during the time that Password Tracker Deluxe is sending output to the printer. The page number indicates the progress of the printing.

To abort printing, choose Cancel.

## **Print Preview command (File menu)**

Use this command to display the active Tracking List as it would appear when printed. When you choose this command, the main window will be replaced with a print preview window in which one or two pages will be displayed in their printed format. The Print Preview toolbar offers you options to view either one or two pages at a time; move back and forth through the pages; zoom in and out of pages; and initiate a print job.

## **Print Preview toolbar**

The Print Preview toolbar offers you the following options:

### **Print**

Bring up the print dialog box, to start a print job.

### **Next Page**

Preview the next printed page.

### **Prev Page**

Preview the previous printed page.

### **One Page / Two Page**

Preview one or two printed pages at a time.

### **Zoom In**

Take a closer look at the printed page.

### **Zoom Out**

Take a larger look at the printed page.

### **Close**

Return from Print Preview to the editing window.

## **Print Setup command (File menu)**

Use this command to select a printer and a printer connection. This command presents a Print Setup dialog box, where you specify the printer and its connection.

## **Print Setup dialog box**

The following options allow you to select the destination printer and its connection.

### **Printer**

Select the printer you want to use. Choose the Default Printer; or choose the Specific Printer option and select one of the current installed printers shown in the box. You install printers and configure ports using the Windows Control Panel.

### **Orientation**

Choose Portrait or Landscape.

### **Paper Size**

Select the size of paper that the document is to be printed on.

### **Paper Source**

Some printers offer multiple trays for different paper sources. Specify the tray here.

### **Options**

Displays a dialog box where you can make additional choices about printing, specific to the type of printer you have selected.

### **Network...**

Choose this button to connect to a network location, assigning it a new drive letter.

## **Page Setup command (File menu)**

This command is not available.

## Welcome

Welcome, and thank you for taking the time to evaluate Password Tracker Deluxe!

We all know that using separate user names and passwords is smart computing. It is also smart to change your passwords frequently. Remembering all those user names and passwords, especially if you change them as often as you should, can be a real hassle. That was before Password Tracker Deluxe.

Password Tracker Deluxe solves the problem of trying to remember multiple user names and passwords for different programs. All you need to do is enter the information into Password Tracker Deluxe's database, assign the program window where you want the information to go, and you're done. The next time you need to enter user name and password information, just click on the Password Tracker Deluxe icon in the Windows 95/NT 4.0 System Tray, pick the correct "P-Track" and the data is automatically inserted into the program. And with the wizards in Password Tracker Deluxe, using Password Tracker Deluxe has never been easier.

Password Tracker Deluxe does even more than just track your passwords. Password Tracker Deluxe can even launch a program or URL. Also, Password Tracker Deluxe can even send your commonly typed text to programs.

Your favorite programs, web sites, and text entries are now just a simple click away.

## Revision History

### ***Password Tracker Deluxe 3.0***

Added the ability to launch a program or go to a URL.

Added the ability to scan for playback windows to automatically send the password to a program.

Added the ability to send the notes to a program.

Improved the printing format.

Made many other interface improvements.

### ***Password Tracker 2.17***

If registered, the program starts silently when Windows starts up.

The last window placement is now always restored when the program starts.

The last toolbar and status bar state are now restored when the program starts.

### ***Password Tracker 2.16***

Added the ability to have wild card characters for the playback window title bar text.

### ***Password Tracker 2.15***

Added more special send keystroke codes. For example: {home}, {end}, {left}, {right}, {backtab}, {selectall}, {delete}.

You can now click in any column to select a P-Track. The entire P-Track row is now also highlighted.

Improved the select playback window title bar text command.

Made other minor interface improvements.

### ***Password Tracker 2.14***

The pause times can now be in tenths of a second.

Fixed being able to send the space character in a user id or password.

The Tracking List name is now verified as a valid file name.

Improved the handling of invalid or corrupt Tracking List files.

### ***Password Tracker 2.13***

Fixed opening, printing and creating Password Tracker files using the Windows Explorer.

Setup will check and make sure Password Tracker is closed before installing the files.

Uninstallation will now remove all Password Tracker registry entries.

### ***Password Tracker 2.12***

The System Tray pop-up menu now only displays P-Tracks that are capable of sending the user id and/or password to a playback window.

Improved the print out.

Fixed a few other minor bugs relating to the System Tray menu.

### ***Password Tracker 2.11***

Improved the notes feature by word wrapping the text and not selecting the entire text when opening the notes dialog box.

Fixed a few minor bugs.

### ***Password Tracker 2.10***

Added the ability to track notes for each P-Track.

Refined the program and fixed a few minor bugs.

### ***Password Tracker 2.01***

Wizards were added to guide you through creating and modifying Tracking Lists and P-Tracks.

Tracking Lists can now be printed.

A right-click menu of commands is available for the selected P-Tracks.

The expiration date of the password is now also displayed.

Added more send keystroke codes (for example, {pause}) so even more playback windows work.

Increased the security of the Tracking Lists.

Refined the program and fixed a few minor bugs.

### ***Password Tracker 1.0***

The ability to track virtually an unlimited number of passwords.

Automatically send the user id and/or password to a dialog box requesting the password.

Quick access to your Tracking List via the Windows 95/NT 4.0 System Tray.

Option to password protect the Tracking List.

Option to be notified when passwords expire.

Context sensitive on-line help.

Please take a moment to read the [License Agreement](#) and [Registration Information](#) now.

Once again, thanks for evaluating Password Tracker Deluxe. We look forward to hearing from you soon!

## Registration Information

If you use Password Tracker Deluxe for more than 30 days, you are required to become a registered, licensed user. Before using Password Tracker Deluxe, carefully read the [License Agreement](#).

Registered users receive the following benefits:

1. Unlimited product support via e-mail and mail.
2. A registration number which removes the "Evaluation Version" and "Copyright Violation" notifications.
3. A registration number which removes the splash screen when Windows starts up.
4. Notification of upgrades via e-mail.
5. Free upgrades via download from our web site or \$5.00 US for upgrades on diskette sent via mail.
6. A say in what Password Tracker Deluxe can do. You are encouraged to let us know what new features you would like to see.
7. Your registration will ensure continued enhancements to Password Tracker Deluxe.

To register, fill out the [Registration Form](#) and send it in.

## Registration Form

To register Password Tracker Deluxe, send the following information along with a check, money order or cash (US funds, payable to Robert P. Cannalte). If you are registering more than one copy, you may optionally submit forms for each additional user. Please print or type clearly. Especially the e-mail address since that is our main form of communication to you.

1. Registration Fee:	<u>Count</u>	<u>Fee</u>	<u>Quantity</u>	<u>Total</u>
	1	\$10.00 each	_____	_____
	2 to 50	\$8.00 each	_____	_____
	51 or more	Send us an e-mail for a price quote.		

2. Name: \_\_\_\_\_

3. Address: \_\_\_\_\_

4. City: \_\_\_\_\_

5. State: \_\_\_\_\_

6. Zip Code: \_\_\_\_\_

7. Country: \_\_\_\_\_

8. E-mail Address: \_\_\_\_\_

9. Current version number of Password Tracker Deluxe: **Version 3.0**

10. Where did you find out about Password Tracker Deluxe?

## **Password dialog box**

Enter the required password to proceed.

## Properties page

The following options can set the properties of the P-Track:

### **Name**

The name of the account or program.

### **Shortcut**

The shortcut to run or URL to go to when selecting the P-Track. To enter a shortcut, simply drag and drop the shortcut from the desktop or from explorer. To enter a URL, copy and paste the URL from your browser.

### **User ID**

The user id of the account.

### **Password**

The password of the account or program.

### **Verify Password**

Re-enter the password to verify that it was typed correctly.

### **Generate**

Choose this button to automatically generate a password. Use the [Generate Password dialog box](#) to change how the password is generated.

### **Window Title**

The playback window title bar text to send the keystrokes to.

To do a wild card character match, put an asterisk (\*) at the beginning or the end of the title bar text. For example: "Enter\*" or "\*Password". Be careful using the wild card character match since it may cause the automatic send to be run at the wrong times.

Enter an asterisk (\*) if you want to send the keystrokes to the last active window.

If you do not wish to send the password to the program, leave the window title blank.

### **Select**

Choose this button to enter the playback window title text by selecting the window title bar with the left mouse button.

### **Send Keystrokes**

The sequence of keystrokes to send the user id and/or password to the program. See also: [Special Codes](#)

### **Custom**

Choose this button for additional assistance in creating a custom keystroke sequence using the [Custom Keystroke Sequence dialog box](#).

## **Password dialog box**

The following options allow access to your Tracking List. If a Tracking List password is entered, the password will need to be entered to open the Tracking List file.

### **Old Password**

The old password to change.

### **New Password**

The new password. If blank, password protection of the Tracking List will be disabled.

### **Verify**

Re-enter the new password to verify that you typed the password correctly.

### **Password required to send keystrokes**

If checked, the Tracking List password will need to be entered to send keystrokes to a playback window.

**Note:** Be sure to write the Tracking List password down somewhere in a secure place. We are unable to recover your Tracking List should you forget this password.

## Options dialog box

The following Tracking List options can be set:

### **Passwords never expire**

If checked, passwords never expire.

### **Passwords expire**

The number of days the passwords will expire in.

## Password command (File menu)

Use this command to allow access to your Tracking List.

If you have the Use Wizards option selected, the Tracking List Wizard will guide you through changing the Tracking List password. Otherwise, the Password dialog box will be used to change the Tracking List password.

Note: Be sure to write the Tracking List password down somewhere in a secure place. We are unable to recover your Tracking List should you forget this password.

## Options command (File menu)

Use this command to change the options of the Tracking List.

If you have the Use Wizards option selected, the Tracking List Wizard will guide you through modifying the Tracking List options. Otherwise, the Options dialog box will be used to change the Tracking List options.

## Add command (Edit menu)

Use this command to add a new P-Track to the Tracking List.

If you have the Use Wizards option selected, the P-Track Wizard will guide you through adding a new P-Track. Otherwise, the P-Track dialog box will be used to add a new P-Track.

### Shortcuts

Toolbar:

Keys: CTRL+A

## **Delete command (Edit menu)**

Use this command to delete the selected P-Tracks from the Tracking List. You will be asked to confirm deleting the selected P-Tracks.

### **Shortcut**

Keys: DELETE

## Properties command (Edit menu)

Use this command to change the properties of the selected P-Track.

If you have the Use Wizards option selected, the P-Track Wizard will guide you through modifying the P-Track. Otherwise, the Properties dialog box will be used to modify the P-Track.

### Shortcuts

Toolbar:

Keys: ALT+ENTER

## **Passwords command (View menu)**

Use this command to show or hide the display of the passwords and expiration dates. The expiration dates will only be displayed if passwords are set to expire.

If the Tracking List is password protected, you will be asked for the Tracking List password to turn the display of the Passwords back on.

See Also

[Options command](#)

## **User IDs command (View menu)**

Use this command to show or hide the display of the user ids.

If the Tracking List is password protected, you will be asked for the Tracking List password to turn the display of the User IDs back on.

## **Help Topics command (Help menu)**

Use this command to display the opening screen of Help. From the opening screen, you can jump to step-by-step instructions for using Password Tracker Deluxe and various types of reference information.

Once you open Help, you can click the Contents button whenever you want to return to the opening screen.

### **Shortcut**

Keys: F1

## Send command (Edit menu)

Use this command to send the user id and/or password to the playback window.

### Shortcut

Toolbar:

## License Agreement

Carefully read the terms and conditions before using Password Tracker Deluxe. By using Password Tracker Deluxe, you agree to the terms and conditions stated. If you do not agree to the stated terms and conditions, do not use Password Tracker Deluxe.

Password Tracker Deluxe is Shareware, not public domain software or free software.

Unregistered users are granted a limited license to evaluate Password Tracker Deluxe for 30 days. The use of Password Tracker Deluxe after the 30 day evaluation period requires registration and is in violation of federal copyright laws.

One registered copy of Password Tracker Deluxe may be licensed to one person for use on multiple machines or for one machine for use by multiple people. Password Tracker Deluxe may be used on a network provided that all workstations that have access have individual licenses.

Password Tracker Deluxe is registered when the registration fee has been received and a registration number has been issued. It is unlawful to distribute the registration number to anyone.

Password Tracker Deluxe and its associated files cannot be modified or patched in any way including but not limited to decompiling, disassembling or reverse engineering the files.

A limited license is granted to distribute Password Tracker Deluxe for evaluation purposes only under the following conditions:

1. All the files must be distributed together in unmodified form.
2. No fee, charge, donation or other compensation can be accepted or requested, except as authorized below.
  - a. Electronic bulletin board and internet site system operators may make Password Tracker Deluxe available for downloading as long as the above conditions are met and there is not a specific charge for downloading Password Tracker Deluxe. A charge for the overall use of the bulletin board system or internet site is permitted.
  - b. Vendors of user-supported or shareware software and non-profit user groups may distribute Password Tracker Deluxe as long as the above conditions are met. A charge for disk duplication and handling of Password Tracker Deluxe is permitted provided, that when pro-rated, is not more than three dollars US.

A letter stating that you are distributing Password Tracker Deluxe is recommended so as updates can be provided.

### **Limited Warranty**

The Password Tracker Deluxe software and accompanying files are provided "as is" and without warranties as to the performance of merchantability or any other warranties whether expressed or implied. Because of the various hardware and software operating environments, no warranty for a particular purpose is offered. In no event shall Carl L. Roth or Robert P. Cannalte be liable for any damages whatsoever arising out of the use or inability to use Password Tracker Deluxe even if Carl L. Roth or Robert P. Cannalte has been advised of the possibility of such damages.

## **Exit Password Tracker Deluxe dialog box**

Your passwords will not be easily accessible if Password Tracker Deluxe closes. You should select to minimize Password Tracker Deluxe.

The following options are available when trying to exit Password Tracker Deluxe:

### **Exit**

Choose this button to close Password Tracker Deluxe.

### **Minimize**

Choose this button to minimize Password Tracker Deluxe.

### **Cancel**

Choose this button to return back to Password Tracker Deluxe.

## **P-Track Wizard - Name**

Tracking Lists can store an unlimited number of P-Tracks. Each P-Track can hold various pieces of information including a name, a user id/user name, and a password.

Enter the name of the P-Track in the edit box.

Hint: It's most useful to create a brief name that relates to the program or service that the P-Track will remember. Your P-Track name can be later changed at any time by selecting the [Properties command](#).

These buttons are available to navigate the Wizard:

### **Next**

Choose this button to go to the next page.

### **Cancel**

Choose this button to not save the P-Track and quit the Wizard.

### **Help**

Choose this button to view this on-line help.

## **P-Track Wizard - Playback Window Title Bar Text**

One of the most exciting features of Password Tracker Deluxe is its ability to automatically send the user id and/or password to the program or service that requires your input. To do this, the P-Track must store the text in the Title Bar of the Playback Window which is asking for the user id and/or password.

If the Playback Window to send the user id and/or password to is currently open on your screen, choose the Select Playback Window button. Then, simply click the left mouse button on the Title Bar of the Playback Window. This is the recommended method.

You may also manually enter the Title Bar Text in the edit box. Be sure to enter the text EXACTLY as it appears in the Title Bar of the Playback Window.

To do a wild card character match, put an asterisk (\*) at the beginning or the end of the Title Bar Text. For example: "Enter\*" or "\*Password". Be careful using the wild card character match since it may cause the automatic send to be run at the wrong times.

You may also enter an asterisk (\*) for the Title Bar Text to have Password Tracker Deluxe send the user id and/or password to the last active window.

If you do not wish to have Password Tracker Deluxe send the user id and/or password to a Playback Window, leave the Title Bar Text blank.

These buttons are available to navigate the Wizard:

### **Back**

Choose this button to go back to the previous page.

### **Next**

Choose this button to go to the next page.

### **Cancel**

Choose this button to not save the P-Track and quit the Wizard.

### **Help**

Choose this button to view this on-line help.

## **P-Track Wizard - Keystroke Sequence**

In order to automatically send your user id and/or password to the Playback Window, Password Tracker Deluxe will need you to tell it the sequence of keystrokes that are necessary to send the information.

Select the sequence of keystrokes from the list.

If you are an advanced user, and would like to enter your own custom keystroke sequence, choose the Custom button. You can then enter the custom keystroke sequence using the [Custom Keystroke Sequence dialog box](#).

These buttons are available to navigate the Wizard:

### **Back**

Choose this button to go back to the previous page.

### **Next**

Choose this button to go to the next page.

### **Cancel**

Choose this button to not save the P-Track and quit the Wizard.

[P-Track Wizard - Congratulations!](#)

## P-Track Wizard - User ID

P-Tracks can also store a user id or user name if the program or service requires one with the password. If no user id or user name is required, just choose the Next button.

Enter the user id or user name in the edit box.

Hint: Be sure to type the user id or user name exactly as you did when you created it, making sure to use upper and lower case letters as necessary.

These buttons are available to navigate the Wizard:

### **Back**

Choose this button to go back to the previous page.

### **Next**

Choose this button to go to the next page.

### **Cancel**

Choose this button to not save the P-Track and quit the Wizard.

## P-Track Wizard - Shortcut

Each P-Track can contain a shortcut to run before sending the user id and/or password. The shortcut can be a Windows shortcut link file, a command line or a URL.

Enter the shortcut in the edit box.

Hint: To enter a shortcut link, simple drag and drop the shortcut from your desktop or Explorer to the edit box.

Hint: To enter a URL, copy and paste the URL text from your browser.

These buttons are available to navigate the Wizard:

### **Back**

Choose this button to go back to the previous page.

### **Next**

Choose this button to go to the next page.

### **Cancel**

Choose this button to not save the P-Track and quit the Wizard.

## **Use Wizards command (Help menu)**

Use this command to toggle using the Wizards to create or modify Tracking Lists and P-Tracks. A check mark appears next to the menu item when the Wizards will be used.

## Tracking List Wizard - Name

Password Tracker Deluxe can be used by one or more users. For this reason, each user must create his or her own list, called a "Tracking List". Tracking Lists can store information about an unlimited number of passwords in records, called "P-Tracks".

Enter a name for the Tracking List in the edit box.

Note: Tracking Lists are stored as individual files in the Password Tracker Deluxe directory created during setup.

These buttons are available to navigate the Wizard:

### **Next**

Choose this button to go to the next page.

### **Cancel**

Choose this button to not save the Tracking List and quit the Wizard.

### **Help**

Choose this button to view this on-line help.

## Tracking List Wizard - Password

Enter the password to protect the Tracking List in the first edit box.

Re-enter the password in the second edit box exactly as you entered it before to verify that it was typed in correctly.

Note: This will be the only password you need to remember. You will be required to enter it each time you open the Tracking List. Be sure to store a copy of this password in a safe place. You can disable the password protection for the Tracking List later by using the [Password command](#) on the File menu.

These buttons are available to navigate the Wizard:

### **Back**

Choose this button to go back to the previous page.

### **Next**

Choose this button to go to the next page.

### **Cancel**

Choose this button to not save the Tracking List and quit the Wizard.

## Tracking List Wizard - Password Required To Send Keystrokes

If you are password protecting the Tracking List, you have the additional security option of requiring the Tracking List Password to be entered before a user id and/or password is sent to the Playback Window.

This additional level of security is useful if your computer is left unattended.

Select either Yes or No to require the Tracking List Password to be entered in order to send the user id and/or password to the Playback Window.

### **Back**

Choose this button to go back to the previous page.

### **Next**

Choose this button to go to the next page.

### **Cancel**

Choose this button to not save the Tracking List and quit the Wizard.

### **Help**

## Tracking List Wizard - Password Expiration Dates

Password Tracker Deluxe has the ability to notify you when your passwords expire. By regularly changing your passwords, your accounts will become more secure.

Select either Yes or No to be notified when your passwords expire.

If you want to be notified when your passwords expire, enter the number of days the passwords will expire in. Type in the number of days or use the up and down arrows to select the number of days.

Hint: It is recommended to change your passwords every 30 days.

### **Back**

Choose this button to go back to the previous page.

### **Next**

Choose this button to go to the next page.

### **Cancel**

Choose this button to not save the Tracking List and quit the Wizard.

## Registration dialog box

The following options must have valid entries to register Password Tracker Deluxe:

**Name**

The name of the person registering the program.

**Registration Number**

Your valid registration number.

## Registration command (Help menu)

Use this command to register your copy of Password Tracker Deluxe. Use the [Registration dialog box](#) to enter your registration information.

## Custom Keystroke Sequence dialog box

The following options allow you to customize the send keystroke sequence.

### **Enter a custom keystroke sequence**

The sequence of keystrokes to send to the playback window. See also: [Special Codes](#)

### **Special Codes Help**

Choose this button to read the special codes on-line help.

### **Get Control Class Name**

Choose this button to use the mouse to select a control to get its class name. Use the left mouse button to select the control.

## **Notes page**

Each P-Track can contain individual notes.

Enter the notes in the edit box.

Hint: The notes can contain a key phrase to help you remember the password.

## Notes command (Edit menu)

Use this command to edit the P-Track notes. The P-Track dialog box [Notes page](#) will be used to edit the P-Track notes.

### Shortcuts

Toolbar:

Keys: CTRL+M

## **Notes command (View menu)**

Use this command to show or hide the display of the first line of the notes.

## **Restore command**

Use this command to restore the Password Tracker Deluxe window.

## **Favorite P-Track command**

Use this command to send the selected P-Track's user id and/or password to the playback window.

## Special Codes

Special codes for sending keystrokes to a playback window are:

{userid}	Send the user id.
{password}	Send the password.
{password!}	Send the password only to a password styled edit control.
{notes}	Send the notes.
{tab}	Send the tab key.
{enter}	Send the enter key.
{space}	Send the space bar key.
{Fn}	Send the function key n, for example: {F7}.
{pause s}	Pause s seconds before sending the next keystroke. For example: {pause 2.5} will pause 2.5 seconds.
{home}	Send the home key.
{end}	Send the end key.
{left}	Send the left arrow key.
{right}	Send the right arrow key.
{up}	Send the up arrow key.
{down}	Send the down arrow key.
{pageup}	Send the page up key.
{pagedown}	Send the page down key.
{backspace}	Send the back space key.
{delete}	Send the delete key.
{insert}	Send the insert key.
{backtab}	Send the back tab key.
{selectall}	Select all the text in the edit control.
{edit x}	Go to the xth edit control. For example: {edit 2} will go to the second edit control.
{tabstop x}	Go to the xth control. For example: {tabstop 2} will go to the second tabstopped control.
{control c x}	Go to the xth control with the class name c. Use the Get Control Class Name command to get the control's class name. For example: {control edit 2} will go to the second control with the class name edit.

To send other characters, do not put brackets around the text to send. For example: {userid}{tab}this text is sent as is{tab}{password}{enter}.

## **Shortcuts command (View menu)**

Use this command to show or hide the display of the shortcuts.

## Generate Password dialog box

The following options allow you to generate a new password:

### Method

Select one of the generation methods.

Random Letter and Numbers: this method generates an 8 to 12 character password consisting of random letters and numbers.

Simple: this method randomly chooses two words from the list and separates them with a dash.

Complex: this method randomly chooses two words from the list. Between the two words and at the end, a number between 0 and 99 may be added. The case of the letters are randomly changed.

### Word List

Choose this button to change the list of words used to generate the simple and complex passwords. Use the [Word List dialog box](#) to change the list of words.

The new password is placed on the clipboard. Press Ctrl+V to insert the new password in the other program. The clipboard will be cleared after closing this dialog box.

## **Word List dialog box**

The following options allow you to modify the word list for generating a simple or complex password:

### **Add**

Choose this button to add a new word to the list.

### **Delete**

Choose this button to delete the selected word from the list.

To modify an existing word, click on a selected word to go into edit mode.

## Scan For Playback Windows command (Edit menu)

Use this command to check and see if the foreground window is a playback window. If the foreground window is a playback window, automatically send the user id and/or password.

If P-Tracks are being sent when they shouldn't be either a) turn off the scan for playback windows feature or b) individually disable the P-Track scan that is causing the problem by using the Properties command and disabling automatic send during scan for playback windows on the preferences page.

Note: A P-Track must be sent manually at least once for Password Tracker Deluxe to record additional information to distinguish itself from other P-Tracks with the same playback window title bar text.

## **Send Keystrokes dialog box**

Select the Cancel button to stop the send keystrokes process.

## Preferences page

Each P-Track can contain individual preferences.

Select which preferences to enable or disable from the list.

Hint: Disable the automatic send during scan for playback windows if this P-Track's send keystrokes is trying to be sent at the wrong times.

## Error: Invalid playback window title

The current foreground window title bar text does not match the playback window title bar text entered for this P-Track.

Here are some hints to solve this problem:

When entering the Playback Window Title Bar Text, use the Select Playback Window button to automatically enter the correct text for you by selecting the Playback Window with the left mouse key.

Sometimes the displayed title bar text does not match the text that Windows stores for the window. In this case, you must use the Select Playback Window button.

If the Playback Window Title Bar Text is not always the same, you can use the asterisk (\*) wild card character at either the beginning or the end of the title bar text.

When using the wild card character, be sure to include as many common characters as possible.

Make sure you have selected the correct P-Track to send.

If you are still having problems, send an e-mail to [robertc@xnet.com](mailto:robertc@xnet.com).
