

Sparks & Beethoven proudly present:

**"Ports of Call 2.0"**, the life size maritime business simulation by Rolf-Dieter Klein and Martin Ulrich with graphics by Jim Sachs and Richard LaBarre. The program does not only put you into the truly fascinating scenario of the world of tramp shipping but is a highly enjoyable and slightly addictive game too. It runs from and above MS-DOS 3.3, a '286 computer with standard VGA, 640 kB of RAM and supports MS-mouse and sound-blaster compatible sound cards.

This version gives you one hour of trial time to find out if you do like it or don't. Copy it and give it to people who might be interested too. To buy unlimited playing time, receive a disc with manual, purchase any of 9 language versions or get the educational network version with printed manual you will need to register, please.

Print out the following order form and mail or fax it to:

**S&B Ulrich GmbH,  
Schwachhauser Heerstraße 78,  
D-28209 Bremen, Germany.**

**Fax: + 49 - 421 - 349 19 15**

**E-mail:**

**(Internet): rdklein@cube.net**

**Compuserve: 76356,2067**

I don't need any discs or manuals. Just send me a serial number. Typing in my serial number will give me unlimited playing time. I promise neither to copy (except for my safety dup) the serialized version of the program nor to give or sell it to anybody. I am aware that breaking this promise is a violation of copyright and other laws and can be prosecuted.

The serial number for unlimited playing time costs  
US\$ 20.00.

I want "Ports of Call" and the manual (english and german) on a disc. Please send me one of the following language versions:

English	French	Spanish	German
Italian	Swedish	Finnish	Norwegian
Dutch			

I promise neither to copy (except for my safety dup) the serialized version of the program nor to give or sell it to anybody. I am aware that breaking this promise is a violation of copyright and other laws and can be prosecuted.

The cost for any of the language versions on a disc is  
US\$ 40.00 incl. shipping.

I am a teacher and would like to use "Ports of Call" in my classes. Please send me the unlimited network version and the printed (english and german) teachers manual. I want "Ports of Call" in one of the following languages:

English      French      Spanish      German  
Italian      Swedish      Finnish      Norwegian  
Dutch

I promise neither to copy (except for my safety dup) the serialized version of the program nor to give or sell it to anybody. I am aware that breaking this promise is a violation of copyright and other laws and can be prosecuted.

The cost for any of the language versions on a disc is US\$ 180.00 incl. shipping.
