

## Note From the Author:

Dear System 7 Pack! User:

Hi! My name is Adam Stein and I'm the author of the System 7 Pack! Thanks for taking the time to try out this package. I hope you'll like it.

I'm very excited about this release—and especially our new IGS Mac Software Spectacular! You'll get hundreds of dollars of software from Insanely Great Software, plus 28 Megabytes of Commercial Demos from leading publishers of Macintosh software for only \$49.95. You can read more about it at the end of this document.

We've also now bundled the System 7 Companion Pack! (a package of six utilities sold separately for \$25) FREE with all orders of the System 7 Pack!

This release is also the first release that is 100% compatible with System 7.1. It's also compatible with the American, British, Belgian, Danish, Dutch, German, Italian, Japanese, Finish, French, Spanish, and Swedish versions of the Finder. If you need a copy of the System 7 Pack! customized for another language, just include the name of the System that you are using on the order form and I'll make you a customized version at no charge. (Version 3.4 had a segmentation bug that caused it to hang on all International systems, but version 3.4.1 should work without a problem).

If you have any questions about the System 7 Pack!, Insanely Great Software, or even Mac-dom in general, please feel free to give me a call at 908-548-5107. You can also reach me by email at AdamStein on AOL, 71140,2051 on Compuserve, and AdamStein@aol.com on the Internet. Faxes can be sent to 908-548-5107. I'm at your service!

Sincerely,

Adam Stein  
Insanely Great Software
