

NEWMAST and NEWEST

NASA, in conjunction with the National Science Teachers Association (NSTA), annually sponsors at each regional NASA Center a NASA Educational Workshop for Math, Science, and Technology teachers (NEWMAST), or a NASA Educational Workshop for Elementary School Teachers (NEWEST).

The NEWMAST and NEWEST programs are cosponsored by NASA and NSTA in cooperation with the National Council of Teachers of Mathematics (NCTM), and the International Technology Education Association (ITEA).

Teachers accepted for these programs receive extensive educational materials, observe state-of-the-art scientific research and development activities, are briefed in aeronautics, space sciences, and astronomy, and interact directly with scientists and engineers in their research laboratories.

Nominations for teachers to attend NEWMAST or NEWEST must be received by February 25 of each year to be eligible for the following summer's program. Request nomination packages from the address below:
