

# Welcome to

for Windows 3.1

New Version 4.0!

One of the exciting new features of Quick View Plus 4.0 is its ability to follow hyperlinks. The document you are now reading is being viewed with Quick View Plus. To demonstrate this feature and to make it easier for you to find the information you may need, we created this hyperlinked README. The first three entries in the table below are links within this document so you can either click on the topic to go to it or you can scroll through the document to read the information. The last two topics, *Browser Integrations* and *Last Minute Technical Notes* are links to other documents. You can link to them from this page or you can view them directly. The documents `href="browsers.doc` and `href="technote.doc` are in your QVP directory.

If installed, please take the time to view our sample files available in the *SAMPLES* folder within your QVP directory.

Topic Links	Summary
<a href="#">href="#features</a>	Describes new features in Quick View Plus 4.0
<a href="#">href="#ContactInfo</a>	Presents the various ways to contact Inso for sales, customer support and technical support in North America and Europe.
<a href="#">href="#Formats</a>	A list of every application format that Quick View Plus will view.
<a href="#">href="Browsers.doc</a>	Provides technical information on configuring Quick View Plus to work optimally with Netscape Navigator.
<a href="#">href="technote.doc</a>	Provides late-breaking technical information that may impact your use of Quick View Plus.

This README document is only viewed when *Quick View Plus* is run for the first time. If you wish to view it at a later time, it is README.DOC in the directory where you installed *Quick View Plus*.

## ➤ What's New

### Greatly enhanced viewing system!

Most noticeably, Quick View Plus version 4.0 has a greatly enhanced viewing system that can display complex documents with extreme fidelity. Improvements include embedding, font, and color support in all formats; headers and footers in word processing documents; greatly improved viewing of HTML documents; numerous improvements in the display of graphics; and much more.

### New ways to get to and use Quick View Plus!

#### Support for Hyperlinks!

##### Hyperlink capabilities

Click on a hyperlink and be transported to that file or World Wide Web location via your internet browser.

### New Integrations!

Always one of our most popular features "integrations" allow you to use Quick View Plus seamlessly from within other applications. Our newest ones are:

#### Microsoft Exchange16 Integration

Double click on an Exchange attachment to view a file sent to you. We also provide printing functionality for those attachments that don't have applications registered to do so.

#### Lotus Notes 4 Integration

QVP will replace the attachment viewing capabilities of Notes 4.0 with its own viewers, thus presenting the latest in viewing capabilities from within the Notes interface.
