

Bounty! version 1.02a order form

Bounty! is a shareware application, giving you the opportunity to evaluate it before you buy it. You are free to evaluate it for a period of twenty **(20)** days. After this initial trial period, you must either delete it from your system or register your copy with the author.

Registering this copy entitles you to own one copy of **Bounty!**. The registered copy will have no annoying registration reminders or shareware notices.

This application represents much time and hard work. Please support the shareware "try before you buy" concept by registering your shareware software.

Thank you,

Jeff Blanchard (Author)
