_____

1.1   Purpose on Level 1
Your evil twin brother is throwing explosive presents from a cloud. He's flying from the left to the right in the playing area, and he's throwing the presents down at the houses. When a present reach a window, the light comes on. When all lights are on in the windows, the house will explode. If all the houses explodes, you have failed and the game is over. You must try to catch these presents before they can reach the houses.

1.2   Controls on Level 1
You use the left and right arrow keys [←] [→] to steer the sleigh to the left and right in the playing area.

1.3 Purpose on Level 2
Now you must disarm the bombs you caught in level 1. Three spinners are spinning in the display, and each spinner display six different flags. Each flag has a number between 1 and 6. To disarm the bombs you must not only stop the spinning flags, but you must stop them so that they are showing the same number. When you click on a flag, it will be replaced by a number.
Example: The 'Union Jack' has the number '1'. You must try to stop all the flags when the 'Union Jack' is displayed. If you on the second or the third flag get a different number than '1', you have failed, and the game is over.

1.4   Controls on Level 2
You use the mouse to click on the spinning flags.

1.5 Purpose on Level 3
Deliver presents to all the windows in all the houses. When a present reaches a window, the light comes on. When all lights are on in the windows, you have successfully delivered all the presents to that house.

1.6 Controls on Level 3

The sleigh is pulled by the reindeers, and is on "automatic pilot". You do not need to steer the sleigh. All you have to do, is to throw the presents. You do this by pressing [SPACE].

Note: You can only throw one present pr. round.
