

arry

Harry the Handsome Executive is not your ordinary game. In this adventure, you find yourself in an ergonomically correct chair, embarking on various missions delegated by your less-than-friendly manager. Along the way you run into obstacles, such as dart-throwing employees, locked doors, and slick surfaces that cause you to spin wildly out of control. Scoot your way to success and you may be the "Employee of the month". This program is to be used with Power PC computers only. To run efficiently, this program must be copied to your Hard Drive.

erve

Nerve is an action-packed quality color game with explosive animation, 35 plus levels, lots of cool sounds, strategic, and addicting game play. The Mission: A mad bomber has set a series of bombs to go off. You must deactivate these bombs using your skill and steady hand. Along the way you will encounter specials, bad dudes and messages from the mad bomber himself.

pace Siege

Space Siege is an overhead perspective game. You are a lone fighter who has traveled under the cover of the dark void of space to reach your enemy's home world. You must carry out one duty: destroy the planet and end the war. Orbit the planet, shoot missiles at the globe, and retaliate against the enemy craft that tries to stop you. This game features sprite animation, multiplayer combat, and even a QuickTime intro movie. To run efficiently, this program must be copied to your Hard Drive.

irtual Pong

Virtual Pong is a game created in the tradition of the arcade classic "Pong". This version boasts animated graphics in 256 color, stunning stereo sound effects, and customizable MOD/MADF background music. The objective of the game is to get the ball past your opponent's paddle. The first one to reach ten points wins the game.

orld Builder

Bill Appleton's famous graphic adventure game creation program. Originally a commercial program published by Silicon Beach, it was out of print for many years. Bill graciously released it to the public domain. World Builder is an easy-to-use, easy to learn application for creating adventure games with sound and black and white graphics. It is free, and you may sell or distribute any games you make with it, royalty-free. To run efficiently, this program must be copied to your Hard Drive.
