Daily Popup Order Form

Keyboard Summary

Key	Action
Home	Show today's popup
Left	Show previous day's popup
Right	Show next day's popup
Ctrl+Left	Show previous week's popup
Ctrl+Right	Show next week's popup
Shift+Ctrl+Left	Show previous personal favorite
Shift+Ctrl+Right	Show next personal favorite
F1	Help
F2	Show a specific date's popup
F3	Tag/untag a popup as a personal favorite

Depressing and holding down any previous or next popup key combination will initiate "typematic" action.

Mouse Summary

Use the mouse on the Date Selector icon ◀▶ to move quickly through the calendar.   Click on the left side of the icon to move backward through the calendar.   Click on the right side of the icon to move forward through the calendar.   Clicking the mouse and holding it down will initiate "typematic" action.

The Ctrl and Shift keys can be used in combination with the mouse.   Mouse clicks with the Ctrl key depressed will show either the previous or next week's popup.   Mouse clicks with both the Shift and Ctrl keys depressed at the same time will show either the previous or next personal favorite.

Use the mouse on the Personal Favorite icon 👍 to tag/untag a popup as a personal favorite. The Personal Favorite icon, if tagged, is visible immediately to the left of the Date Selector icon.

File Menu Commands

Open...   Use the File Open menu item to enjoy other Daily Popup Series files installed on your computer.

Preferences...   Use the File Preferences menu item to customize Daily Popup in the following ways:

Autorun   Use the Autorun feature to automatically run Daily Popup every time you start Windows.   There are three ways to use Autorun: Yes; Yes, But Only Once A Day; and No.

Yes   This option will automatically run Daily Popup every time you start Windows.   You can, of course, continue to run Daily Popup on command.

Yes, But Only Once A Day   If you start Windows several times a day and want to automatically run Daily Popup only once on any given day choose this option.   You can, of course, continue to run Daily Popup on command.

No   The Autorun feature is disabled.

Exit   Use the File Exit menu item to exit Daily Popup.

Show Menu Commands

Today	Use the Show Today menu item to return to today's popup.
Previous	Use the Show Previous menu item to view the previous day's popup.
Next	Use the Show Next menu item to view the next day's popup.
Date...	Use the Show Date menu item to view a specific day's popup.
Previous Week	Use the Show Previous Week menu item to quickly move backward through the calendar one week at a time.
Next Week	Use the Show Next Week menu item to quickly move forward through the calendar one week at a time.
Previous Favorite	If you have previously tagged several popups as personal favorites you can quickly view them by using the Show Previous Favorite menu item.
Next Favorite	If you have previously tagged several popups as personal favorites you can quickly view them by using the Show Next Favorite menu item.
Personal Favorite	Use the Personal Favorite menu item to tag/untag a popup as a personal favorite. Your favorites can be identified by the Thumbsup icon immediately to the left of the Date Selector icon.
