Heiko Schröder - "DTypeLha" (an ARExx-script to extract .datatype-files of an .lha-file, full automatized)  
- not released

Heiko Schröder - "SearchIn»Device.guide«" to release the "New.guide" and the "Update.guide"

## 1.8 The future of this LibGuide

The future

\*\*\*\*\*

- monthly update of Device.guide

In Aminet:

- Guide of Libraries (Aminet - util/libs/LibGuide.lha)  
- Guide of Datatypes (Aminet - util/dtype/DTypeGuide.lha)

## 1.9 DVC tells me strange version strings...

Devices check

If the "Devices check" find a device on your system thats more actually than in DevGuide, so send me please the relevant information with the actual size...

Did you get version informations from DVC like this?

midi.device                    1988.0

If you get version informations higher than V100.0, please control the version of the device with c:version.

```
1.Shell:> version xxxx.device full
```

If the result is e.g.: 2.-1 or 3.-1 then read the words from Roger Hågensen:

---

```
>DVC has some problems with version checking by several libraries.
>I've attached some examples. I hope you can change this little. I know,
>that it is a big problem with the different version strings. :-(
```

```
"Some authors do not follow the standard way of making a idstring,
thus those files do not show reliable version info.
Those files that have a correct however, should always be correct.
But sadly it is impossible for anyone to know if a file has
a good or bad version info, and we don't want to use more time
on such messy things, complain to the authors of the files,
it is their loss if they don't have a correct version/idstring..."
```

---

```
BTW: Did you find in DevGuide devices with a size of "0"?
I would be grateful if you can tell the size of this
actually devices to
me
.
```
