919/380-0110 FAX

Incorporated in spring of 1992, Fauve Software is a software development company located near Research Triangle Park in North Carolina. It was founded by two brothers, Fred and Richard Krueger, with private investment capital. Their first PC product, Fauve Matisse, is a paint and image processing package aimed at graphic designers and computer artists.

Fred Krueger, president, has a Ph.D. in Operations Research from Stanford University and a B.A. (Mathematics) from Cornell University. Before founding Fauve Software, he worked as a bond trader on Wall Street and in Paris, France for Saloman Brothers and Greenwich Capital.

Richard Krueger, vice president, has a M.S. in Computer Science from North Carolina State University and a B.A. (Mathematics) from Cornell. He has worked as a programmer for IBM, SAS Institute and The National University of Singapore.
