

It Must Be Madness Contest
Tom Guthery, DelValle, TX, USA

Thank you very much for selecting my animation "Starship Nightshift" as a first prize winner in the category of Best Video Production Values.

I did the animation for fun -- to play with Animator Pro and video capturing. Then it just kind of sat on my hard drive for a while -- there aren't many places to send a 11.4meg .FLC file!

But, thanks to Nautilus, I was able to "show my work to the world"!
