Carrick Caps

Carrick Caps was named for a student of mine. It is a Type 1 PostScript font which will work with Adobe Type Manager, and contains all 26 capital letters. The I and the J, however, look exactly alike. The letters are drawn in black in a gothic style, on top of a stained-glass window kindof pattern.

Carrick Caps is © 1990 by David Rakowski, Alle Rechte Vorhalten. Carrick Caps is distributed free of charge, providing all files in this package are distributed together, unaltered, including the file you are reading. Another altruistic service from the humans at Bug-Bytes.
