

**CRILLEE:** The Font Generation  
Created by Gene Cowan

***ABCDEFGHIJKLMN***

***OPQRSTUVWXYZ***

***abcdefghijklmnop***

***qrstuvwxyz***

This is a Type 1 PostScript version of the typeface Crillee, which just happens to be the face used for the credits of Star Trek: The Next Generation.

This font is fully compatible with Adobe's ATM, and will yield very good output at big sizes.

POSTCARD WARE:

I originally created this typeface for use on my videotape covers, and figured that others would find it useful - if you do, please send me a postcard of your "neck of the woods." My address is:

Gene Cowan  
1806 North Oak Street #29  
Arlington, Virginia 22209

Thanks!
