Preamble: This is Shareware. I am requesting a contribution of \$20 (although I'm not proud...I'll accept any amount) so that I may continue to produce and provide quality LaserWriter fonts at bargain prices. The bank keeps knocking on my door...

Cuniefont: It's readable, but I wouldn't use it on a resumé. I'd use it on the cover of an Archaeology text though. It's interesting. This original font is independant and compatible with any PostScript device
