

Celestial Navigations
Sander Bellman, Marietta, GA, USA

I really enjoy Celestial Navigations. I'd love to catch these guys in a live performance sometime. Can you publish their performance schedule?

From the Nautilus Team:

Celestial Navigations frequently performs in the Hollywood, California, area, but they don't currently tour. However, they would love to hear from you, and perhaps you could urge them to tour soon. Their address and phone number can be found in the ABOUT.WRI file included on their page in the Entertainment section. We'll certainly carry their performance schedule if one becomes available.
