

CD ROM Directory  
Jerry Ross, Oak Park, IL, USA

Should we link you when we see new discs that don't appear in your Directory? If so, what information do you need in addition to disc name and publisher?

**From the Nautilus Team:**

**We appreciate the updates already sent by subscribers and welcome all those to come. You'll find information for contacting us in the INPUT.WRI file presented on the same page as our CD ROM Directory. Please submit as much information as possible about specific disc titles; the name of a disc, its publisher, and a phone number would certainly be appreciated.**
