
TITANIC DEMO

RELEASE NOTES
7/11/96

---- WELCOME-----

These release notes contain late-breaking information about the Titanic demo, a quick overview of how to play, a list of known problems with this pre-release, and information on contacting technical support.

For information on installing and troubleshooting problems with the Titanic Demo, please see the install guide that came with your CD. If you didn't receive an install guide, it is stored as a Microsoft Write document on the Titanic CD. The filename is "INSTALL.WRI". You may also contact technical support; we will be happy to mail one to you.

---- KEYBOARD COMMANDS -----

While playing the Windows version of the demo, you can use the following keys:

Esc	Skips the current animation
Arrow keys	Move forward, turn left or right
A, W, D	Same as the arrow keys
Ctrl+0 thru Ctrl+9	Set sound volume, 0=off, 9=loudest
Ctrl+Q	Quit the game
Ctrl+F1 / Ctrl+F2	Change screen brightness
Ctrl+F3 / Ctrl+F4	Change screen redness
Ctrl+F5 / Ctrl+F6	Change screen greenness
Ctrl+F7 / Ctrl+F8	Change screen blueness
Ctrl+F9	Restore the screen to default colors

---- QUICK OVERVIEW -----

After starting the demo you will see an opening movie followed by a screen that gives you three options. Clicking on the first button will send you to the Trailer section of the demo. This is a brief overview of the entire game. Clicking on the second button will send you to the Interactive section of the demo. Here your boss will give you a mission and you must explore the ship to solve it. You can save your game at any time during the Interactive section. Clicking on the third button will send you to the Slideshow section of the demo. This is a collection of screen shots from the actual game "Titanic: Adventure Out of Time".

---- KNOWN PROBLEMS -----

This pre-release demo of Titanic uses a beta version of CyberFlix's DreamFactory engine. While DreamFactory has been tested on many configurations, there are several known problems with this version, and probably a few unknown ones as well. CyberFlix makes no warranty as to the fitness of the alpha or its ability to run on your computer. That said, here's the list of known problems in this version:

- If you are installing Titanic on a Windows 3.1 machine, be sure to refer to the instruction in the installation guide for information on ensuring your machine is Win32s compatible.

---- TECHNICAL SUPPORT -----

CyberFlix provides technical support via telephone, fax, America Online, and the Internet.

Telephone:

The CyberFlix Help Line is (423) 546-7846. Customer support technicians are available from noon to 5 PM Eastern time to assist you with any problems you may have. We also have an automated help service available day and night at the same number.
