When GraphSaver for Windows blanks your screen, it will display the images you've selected. It will also allow you to select one of a library of animated special effects transitions for each image, and to add sound effects to your pictures. The images used by GraphSaver for Windows can be stored as GIF, BMP, JPEG, PNG and PCX files. GraphSaver for Windows is being offered as bookware... the cost of registration is to buy and read Steven William Rimmer's new novel Wyccad.

Pagan Daybook II for Windows*

Something of a sequel to the original Pagan Daybook, Pagan Daybook II is a Windows calendar which will help you keep track of the festivals and observances of the pagan calendar. It can be configured as both a stand-alone application to greet you when your computer wakes up each morning and as a Windows screen saver. Pagan Daybook II features a greatly expanded database of observances, full colour graphics, sound, animation and various bits of magick. Pagan Daybook II is being offered as bookware... the cost of registration is to buy Steven William Rimmer's novel Coven.

Pagan Daybook for Windows Pagan Daybook for Windows 95

This is a small Windows application which will help you keep track of the pagan calendar. Never again be at a loss to know when the summer solstice occurs, or when to celebrate the festival of Fortunalia. It's considerably more interesting than a calendar that tells you when the bank holidays and long weekends fall. The Pagan Daybook is being offered as bookware... the cost of registration is to buy Steven William Rimmer's new novel *The Order*.

Pagan Daybook for DOS

This is a DOS text-mode implementation of the Pagan Daybook for Windows. Bookware.

Pagan Daybook for Macintosh

Pagan Daybook Screen Saver for Windows

This is a screen saver which will blank your screen and display the Pagan Daybook, described above, after a period of inactivity. The Pagan Daybook Screen Saver is being offered as bookware... the cost of registration is to buy Steven William Rimmer's new novel *Wyccad*.

QuickShow Light for Windows

QuickShow for Windows is a powerful, easy to use Windows multimedia slide show. It will display graphics in any mixture of the following formats: MacPaint, IMG, PCX, GIF, JPEG, TIFF, WPG, MSP, IFF/LBM, BMP, RLE, Halo CUT, Targa, ART, HRZ and Photo CD. Special effects include WAV, MIDI and AVI files. QuickShow is fast, easy to use and can create slide shows which are as simple or as complex as you want them. QuickShow is being offered as bookware... the cost of registration is to buy Steven William Rimmer's new novel *The Order*.

GrafCat for Windows

GrafCat for Windows is an application to print paper catalogs of graphic files. It will print some or all of the images in a directory with anywhere from six to fourty-eight images to a page in high resolution thumbnails. It will drive any printer that Windows has drivers for in two-colour dithered monochrome, 256-level grey scale and 24-bit true colour. GrafCat's output is a very convenient way to keep track of lots of images, handle proof pages for book manuscripts and deal with other situations wherein you want to print a lot of pictures. It works with most of the file types supported by Graphic Workshop for Windows, including PCX, GIF, JPEG, Photo-CD, WMF and TIFF. GrafCat for Windows is being offered as bookware... the cost of registration is to buy and read Steven William Rimmer's new novel *Wyccad*.

Multimedia Workshop Light for Windows

Multimedia Workshop Light for Windows is an easy to use Windows WAV, MIDI and AVI file manager. It allows you to audition, queue, rename, delete and investigate multimedia files. Multimedia Workshop Light is being offered as bookware... the cost of registration is to buy Steven William Rimmer's new novel *The Order*.

Application Animator*

Application Animator will allow you to embed animated GIF files in your Windows applications as custom controls. You can have About boxes that dance, tool bars that attract attention and real-time animation in your software without the overhead of MPEG or AVI. An LZW-free build is available to avoid the Unisys GIF tax.

If you can't obtain them from the usual shareware sources, they're available from us for \$40.00 each preregisterd (except the bookware and Application Animator). They're also all available for downloading from:
