

## About Singing Tutor

**Singing Tutor**, version 4.0

Release Date - 04.11.1998,

Copyright VIMAS Technologies, 1998

**VIMAS Technologies** is an international software development company that provides software tools for image and audio processing and compression, Internet software, databases and education software.

**VIMAS Technologies** also provides custom developments in C++, Delphi, Oracle.

**VIMAS Technologies markets end user applications for Windows 95/98 and Windows NT including:**

**Web Imaging™** ([http://www.vimas.com/ve\\_vwi.htm](http://www.vimas.com/ve_vwi.htm)) - powerful image processing tool for Web designers. It allows quick processing and efficient compression of multiple images for further applications in Home Pages, printed catalogs, databases or files. This package includes triple batch processing™ technology, smart thumbnail™ generation, compound images™, automatic home page generation, instant preview of image processing and much more.

**Image Master™** ([http://www.vimas.com/ve\\_vim.htm](http://www.vimas.com/ve_vim.htm)) - versatile image processing software, that includes processing of multiple image formats, powerful JPEG compression, large number of image processing operations, creation of catalogs.

**Web JPEG™ Plug-in** ([http://www.vimas.com/ve\\_plugin.htm](http://www.vimas.com/ve_plugin.htm)) - Adobe Photoshop 3.05 compatible plug-in for interactive JPEG compression and fast thumbnails generation.

**Speech Master™** ([http://www.vimas.com/ve\\_spm.htm](http://www.vimas.com/ve_spm.htm)) - the tool for speech and music compression for educational purposes.

**Singing Tutor™** ([http://www.vimas.com/ve\\_str.htm](http://www.vimas.com/ve_str.htm)) - the tool to study singing and tuning the musical instruments.

**HTML Organizer™** ([http://www.vimas.com/ve\\_selector.htm](http://www.vimas.com/ve_selector.htm)) - useful utility for organizing HTML files and selecting contents of large HTML files (such as images, sound, Java applets) on your computer.
