If your current copy of MegaWord 95 is the "shareware version" it is provided at no charge to you for evaluation. As a shareware product MegaWord 95 has the ultimate money-back guarantee: if you don't use the product, you don't pay for it. You're encouraged to share MegaWord 95 with your friends, but you're *not allowed* to give it away altered or as part of another system. Also, remember that all Copyright laws apply to MegaWord 95, and that the copyright holder retains all rights.

Try MegaWord 95 - 20 days without nag screens

You're allowed to try MegaWord 95 for 30 days, starting on the day of the first installation. If you want to continue using MegaWord 95, you're expected to register. *To make the trial period as user-friendly as possible you will not see any "nag screens" during the first 20 days after installation.* A modest prompt on the statusbar is the only thing that will remind you how many days you have left to register. From days 20 through 30 you will (every other day) see some less modest registration reminders on your screen. If you haven't installed a registered copy of MegaWord 95 at the end of the 30 day trial period, MegaWord 95 will disable itself, and you must remove MegaWord 95 and all its components from your system.

Registration Benefits

The registration fee will license one copy for use on any one computer at any one time. Registered users of MegaWord 95 will receive a copy of the latest version of the MegaWord 95 package, with all macros in *unencrypted* form, and without any nag screens. Also, registered users are entitled to unlimited technical phone, fax and CompuServe support, and special upgrade discounts for future versions of MegaWord.
