

ACIDOPHILUS

- An intestinal cleanser
- Helps prevent fungus, diverticulosis, acne, and bad breath
- Helps in the absorption of calcium, other minerals.

B-SITOSTEROL

- Derived from many plants and cereal grasses
- Commonly found in rye germ oil
- Emulsifies fats
- More potent than choline for breaking down cholesterol deposits

BEE POLLEN

- Considered by many to be "the world's perfect food"
- Contains over 18 Amino Acids
- High in vitamins
- High in minerals
- High in enzymes and co-enzymes
- Increases muscular vigor
- Increases energy and stamina
- Used it in the treatment of hay fever

BEE PROPOLIS

- Waxy substance collected by honey bees which contains phytonzides. Phytotnzides
- Believed to contain immunity factors
- Stimulates the body
- A natural antibiotic

BIOFLAVONOIDS

BIOFLAVONOIDS - HESPERIDIN - RUTIN - QUERCETIN

Beneficial Properties:

- Vital in their ability to increase the strength of the capillaries (blood vessels)
- Regulates capillary permeability
- Assist Vitamin C in keeping collagen condition
- Essential for proper absorption of vitamin C
- Prevents Vitamin C from being destroyed by oxidation
- Beneficial in hypertension
- Helps hemorrhages and ruptures in the capillaries, connective tissues
- Builds a protective barrier against infections

Quercetin is a highly concentrated form of bioflavonoids. It is derived from citrus fruit

Deficiency Indicators

- May result in varicose veins
- Tendency to bruise and bleed easily
- Appearance of purplish spots on the skin

ACIDOPHILUS

BEE POLLEN

BEE PROPOLIS

B-SITOSTEROL

GRAPE SEED EXTRACT

L-CARNITINE

LECITHIN

OCTACOSANOL

PHOSPHATIDYL CHOLINE

RNA & DNA

ROYAL JELLY

GRAPE SEED EXTRACT

- Similar to pine bark extract as it contains a unique type of bioflavonoids called proanthocyanidins
- Synergistic with vitamin C
- Enhances the activity of Vitamin C
- May strengthen cell membranes
- Protects the cells from oxidative damage

L-CARNITINE

- May improve fat metabolism in the heart, other organs and tissues
- Reduces Triglyceride and cholesterol levels
- Improves heart muscle tolerance
- Prevents irregular heartbeat and angina
- Provides more energy for the heart
- Helps lower blood pressure

LECITHIN

- Contains Choline
- Contains Inositol
- Essential for the breakdown of fats and cholesterol
- Helps prevent arterial congestion
- Helps distribute body weight
- Increases immunity to virus infections
- Cleans the liver
- Purifies the kidneys
