

#\$KA **Welcome to Xteq Helpy**

To learn more about Helpy, please select '**Show Help**' from the '**Helpy**' Menu (left from the **?**-menu).

How to use Helpy:

- To insert a jump (Hotspot), mark a word and click '**Insert Jump**' .
- To insert a jump to an Internet-URL, mark a word and click '**Insert Jump to URL**'.
- To insert a button, click '**Insert Button**'.
- To change the Topic-ID, Topic-Title, K-Keywords or A-Keywords click '**Topic Information**'.

For further information, please see the supplied helpfile.

This is an example of a Jump with A-Keywords.

This is a jump to the next Topic.

This is a jump to a Internet-URL (<http://www.xteq.com>)

Welcome
