

Xteq Systems Helpy Install

To install Xteq Helpy click the **Install.** button If you have already installed Helpy and want to remove it, click **Uninstall.**

Install

Uninstall

The installer will copy three files to your template-directory:

Filename	Description
HELPY.DOT	The main file with all macros and windows.
HELPY.HLP	The helpfile for Helpy.
HELPY.CNT	The contents-file for the helpfile.

If you want other freeware tools from Xteq Systems, please visit us online at <http://www.xteq.com> or write to info@xteq.com.

Xteq Helpy is Freeware.
