iPod

2,000 songs in your pocket.

Features

Stores your entire music collection
- High-capacity 5GB or 10GB hard drive[1] for storing up to 1,000 or 2,000 songs[2]
- Convenient scroll wheel and intuitive interface for quickly and easily pinpointing the song you want
- Large, high-resolution LCD for viewing up to six lines of artists, album titles, playlists, or songs

Goes with you anywhere
- Pocket size and ultralight (2.43 by 4.02 by 0.78 inches; 6.5 ounces) for true portability
- Rechargeable lithium polymer battery with 10 hours of playtime[3]
- 20 minutes of skip protection for uninterrupted playback—even during strenuous activity
- Backlit LCD for clear readability indoors or outdoors
- Innovative design for easy, one-handed operation

Integrates effortlessly with your Mac
- Automatic synchronization with iTunes on your Mac to keep your iPod music and playlists up to date
- FireWire for superfast music transfers—1,000 songs in less than 10 minutes[4]
- One-hour fast charge via FireWire cable connected to your Mac or the included power adapter
- Contacts feature for keeping key names and numbers handy
- FireWire disk mode for storing or transferring data files on iPod

Delivers CD-quality sound
- More than 20 equalizer presets for customized sound
- 60-mW amplifier for high-power sound output
- Premium earbud-style headphones with Neodymium transducer magnets for accurate, high-energy sound
- Ultrawide 20- to 20,000-Hz frequency response for high-fidelity sound across the audible spectrum

Join the revolution with iPod: The first MP3 player to pack a mind-blowing 2,000 songs and 10 hours of battery life into a stunning 6.5-ounce package. Now, with the choice of a 5GB or 10GB iPod, you can take your entire music collection with you, wherever you go.

But iPod isn't just a revolution in portability, it's also a revolution in simplicity. With Apple's award-winning iTunes software, you can import and manage your entire music collection right on your Mac. Then simply plug in your iPod and all your music is automatically downloaded at blazing FireWire speed. Unplug iPod, stash it in your pocket, and all your tunes travel with you.

With up to 2,000 songs at your fingertips, you'd think finding the one you want would be a hassle. Think again. An intuitive interface makes pinpointing any song as easy as it is with iTunes on your Mac. A convenient scroll wheel lets you browse through your collection and select exactly the song you want. Artists and songs are displayed on an easy-to-view LCD with a white LED backlight for clear visibility in low-light situations.

Whenever you add new music or rearrange playlists in iTunes, simply plug iPod back in and it's automatically updated in seconds. The superfast FireWire connection transfers 1,000 songs from your iTunes library in less than 10 minutes—that's less than 10 seconds per CD.[4] iPod also charges automatically while you're transferring music or data. And the 5GB or 10GB hard drive[1] holds more than just music: With the Contacts feature, iPod lets you view names and addresses downloaded from programs like Microsoft Entourage, Palm Desktop, and Mac OS X Address Book for easy access everywhere.[5] You can also store your presentations, pictures, documents, and even entire digital movies on iPod, then carry them across town or across the country in your pocket.

Your music will sound great on iPod. A high-output amplifier provides CD-quality sound with an extremely wide dynamic range. And you can customize your listening experience with more than 20 equalizer presets that you can assign through iTunes or on your iPod itself. The result is deep, pulse-pounding bass and sharp, crystal-clear highs. Even the included earbud-style headphones are exceptional. They're equipped with Neodymium transducer magnets for enhanced frequency response and stunning, high-fidelity sound.

iPod provides up to 20 minutes of continuous skip protection so you can hike, run, or mountain bike without missing a beat. And with 10 hours of playtime[3] from the built-in rechargeable lithium polymer battery, you'll tire out before your iPod needs charging. You can even personalize your iPod with custom laser engraving of up to two lines of text.[6]

iPod: It's all about freedom. The freedom to enjoy your entire music collection anytime, anywhere.

Ordering Information

iPod with 5GB hard drive
Order No. M8513LL/A

iPod with 10GB hard drive
Order No. M8709LL/A

Included accessories
- iPod earbud-style headphones
- Apple FireWire Cable (2 m)
- Apple iPod Power Adapter

iPod also includes a CD-ROM with iTunes 2 software and electronic documentation, a getting started guide, and a 90-day limited warranty.

for your Mac.

Headphones
- Earbud-style headphones with 18-mm drivers using Neodymium transducer magnets
- Frequency response: 20 to 20,000 Hz
- Impedance: 32 ohms
- Sensitivity: 104-dB sound pressure level at 1 mW

Display
- 2-inch (diagonal) liquid crystal display with white LED backlight
- 160-by-128-pixel resolution; 0.24-mm dot pitch
- Support for display of multiple languages and characters simultaneously

Environmental requirements
- Operating temperature: 32° to 95° F (0° to 35° C)
- Nonoperating temperature: –4° to 113° F (–20° to 45° C)
- Relative humidity: 5% to 95% noncondensing
- Maximum operating altitude: 10,000 feet (3000 m)

Power adapter
- 6-pin FireWire connector
- AC input: 100V to 240V at 0.4 amp maximum
- Frequency: 50 to 60 Hz
- DC output: 12V at 1 amp maximum

Requirements

- Apple computer with built-in FireWire port
- Mac OS 9.2 (or later) or Mac OS X v10.1 (or later)
- iTunes 2 software (included)

[1] 1GB = 1 billion bytes; actual formatted capacity less.

[2] Capacity based on an average song length of 4 minutes and 160-Kbps encoding.

[3] Battery life may vary according to use.

[4] Actual rates will vary.

[5] Contacts works with Mac OS X Address Book, Palm Desktop 4.0 or later, Microsoft Entourage for Mac OS X or Mac OS 9, and other applications that support industry-standard vCards (version 2.1 or 3.0).

[6] You can order a custom laser-engraved iPod from the online Apple Store, Apple retail stores, or selected Apple authorized resellers.
