TravelPilot DX

Contents

Detailed Road Network:

- **All the Roads in Liechtenstein, Austria and Switzerland**
- In addition a total amount of 2.241 city and town plans are available for Germany, Italy and France. **581 new cities compared to the previous CD.**

Connecting Road Network:

- **The major trunk and connecting roads in South Germany, Austria, Switzerland, Southeast France, Monaco, Liechtenstein and North Italy are included.**
- You can select more than 80.000 cities and towns as destinations to be guided to.

House Numbers:

- **In all of Switzerland you can directly select house numbers.**
- **House number ranges in 39 big cites of Austria. Compared to 2002/2003 version 27 new cities are available now with House numbers.**

Visual Terrain Information:

- Provided for rivers, built-up areas, parks, etc. (a system with an adapted color display is necessary).

TMC/RDS:

- **For the first time this CD provides the new feature of dynamic route guidance (RDS-TMC) for all the motorways of Austria and Switzerland and also for the motorways of Italy, France and Germany as far as they are included (Multi-country TMC-functionality).**

Information on skiing in winter 2002/2003

- **Tele Atlas implemented useful information regarding the winter season 2002/2003. For 226 austrian and 135 swiss ski resorts the user could gather useful information. After selecting the requested destination, the customer will be guided directly and comfortable to the parking area of the ski resort.**
