## Inhabitants accessible

**Street Network.....12%**  
(Interconnecting and Major Road Network included)

The Street Network (STNW) is the most exhaustive and complete network and is characterized by the representation of accessible roads. It contains residential roads, side-streets, cul-de-sacs and pedestrian zones in cities and towns.

**Interconnecting Network.....complete**  
(Major Road Network included)

The Interconnecting Network (ICNW) contains all connecting and cross-country roads allowing you to reach each municipality.

 **New!**
