Connecting Road Network:
- **For the first time all major roads in 16 European countries are available on one CD.**
- The product provides destinations in Austria, Switzerland, Liechtenstein, France, Germany, Italy, Spain, Portugal, Belgium, Netherlands, Luxembourg, Denmark, San Marino, Andorra, Monaco and Vatican.
- Traveling from Denmark to Portugal? Comfortable cross-border traffic without any CD-exchange in continental Europe possible.

House Numbers:
- **All captured house numbers and street names along the major roads are directly selectable.**

Additional advantages:
- Destinations of a country CD stored in the memory of the navigation system could be used for routing with the Major Roads of Western Europe CD, too.

Visual Terrain Information:
- Provided for rivers and lakes of major importance, built-up areas, which are bigger than 2 km^2 and islands (a system with an adapted color display is necessary).

Standard services:

- about 300 airports
- about 11.000 railway stations
- about 4.800 motorway service areas and car parks
- about 260 border crossing points
- about 6.100 motorway junctions, cloverleaves and intersections

Over 150.000 towns and cities, urban districts and localities are available for selection as your desired destination. This means:
- All city centers with more than 100.000 inhabitants are captured.
- Additional all minor cities with a distance less than 3 km to the major road network are selectable.

In total the CD contains more than 173.200 standard Points of Interest.

Previous Product:
- No previous product available. First DX-product for continental Europe.
