<u>Please Note - This is not a finished version - This is a beta demo</u>
We can provide no support for this demo.

After unzipping the files, make sure you have directx V3 installed and then run ral.exe from windows 95.

This is a one car - one track playable demo.

Keys:

P - Pause and set options etc.
Z - left
X - Right
C - Change view
; - put car into gear
' - Accelerate
/ - Brake

If your keyboard is different, then you will have to play around to find the keys.
