

General Tab

Displays information about an agent. An agent is an e-mail address created for a specific purpose, such as a suggestion box. For example, users can send suggestions to the agent's address, and the agent can then remove the sender's name and forward the suggestion anonymously to a specified user.

Display Name

Shows the name that is displayed in the Address Book.

Alias Name

Displays an abbreviated name (alias) if one was assigned by the administrator.

Notes

Displays additional information about the agent.

Personal Address Book/Add

If available, adds the name to your personal address book or the active list of users.

To/Cc/Bcc

If you are composing a message, adds the name to the corresponding address box in the message.

<< (Previous)

Displays the preceding entry in the address list.

>> (Next)

Displays the following entry in the address list.

Member Of Tab

Displays the distribution lists (DLs) the agent is a member of.

Distribution List Membership

Lists each DL the agent is a member of.

Personal Address Book/Add

If available, adds the name to your personal address book or the active list of users.

To/Cc/Bcc

If you are composing a message, adds the name to the corresponding address box in the message.

<< (Previous)

Displays the preceding entry in the address list.

>> (Next)

Displays the following entry in the address list.

E-Mail Addresses Tab

Displays information about the e-mail addresses and systems that can be used to reach the agent.

E-Mail Addresses

Lists all e-mail addresses that can be used to reach the name selected in the address list.

Personal Address Book/Add

If available, adds the name to your personal address book or the active list of users.

To/Cc/Bcc

If you are composing a message, adds the name to the corresponding address box in the message.

<< (Previous)
