ISO 9660. This ISO standard pertains to CD-ROM file system naming conventions. This standard is available on the World Wide Web, but here's a summary:
•File specifications are limited to 'A'..'Z', '0'..'9', '_' (no lowercase)
•All files must have an extension, delimited by '.'
•The full file specification may only contain one '.'
•A path may not be more than eight folders deep
•A total file specification (path+filename+extension) may not exceed 31 characters
•Folder names may not exceed eight characters
•File names may not exceed eight characters
•File extension may not exceed three characters
