<u>SLIDING PUZZLE for Windows Ver 1.0 May 92</u>

(c) MoonLighting Software

This program may be familiar to those of you who can remember life before the Rubiks Cube et al. As such it needs very little introduction or instruction, just rearrange the scrambled square into that well known phrase or saying :-

```
A   B   C   D
E   F   G   H
I   J   K   L
M   N   O
```

by clicking on the letter square you need to push towards the blank square.

Trival it may be, but this program is released as Shareware not Public domain or Freeware.

If you use this software you should register with me !
for the incredibly low price of **£2.50.** This will give us both a warm feeling and ease your pangs of guilt when you use this program.

This program has been written mainly as a programming exercise to get to grips with the complexity of writing Windows applications, for this reason the source code is also available to anyone who may have an interest in such things.

Registration Details

To register your use of this program, please send the sum of £2.50 ($5.00) to :-

```
            Chris Bartley
            MoonLighting Software
            46 Skelmerdale Way
            Lower Earley
            Reading
            RG6 2YB
            England
```

```
        Payment in the UK by Cheque/Post Order or Cash.
          "     Non UK   by IMO,Cash
```

include a blank floppy to receive the latest version + my other shareware offerings.

If you would like the 'C' source code + build files etc please send £5.00 ($10) + blank floppy to the above address.
