

File Menu

New Game Begin a new session with the latest 'preferences' settings. You cannot begin a new game while you are placing a wager. You can do so at any other time.

New Table This option will keep your current results and issue a new shoe and dealer. This is the same as if you left one table at the casino and went to another.

Close - Hide any windows in front of the main playing window.

Auto Play - An entertaining feature where the computer takes over, counts cards, and makes the 'Best Play' in your current table.

Quit Stop play. At this time your peek score is checked to see if it made the high score list. If you do, it will be announced in the message box area, and your name will appear in the high score window.
