

Special

Casino Prefs... This item displays the dialog box for changing the default casino shoe size and other dealer/shuffling options.

Show High Scores The top 5 scores are tracked and recorded. To score high, you must multiply your starting bet by as much as possible.

Show Shortcuts This item will bring up a window showing all keyboard equivalents for bet placement and the player's betting action.

Coaching Prefs... These preferences allow you to decide the error checking feedback as you learn to count cards and play correctly.

Hints/Coaching On or Off - The recommended study method depends on what you already know. At first, turn OFF the coach and keep hints ON. As you get more familiar with play, turn ON the coach and turn OFF the hints. These menu items are a shortcut, saving time from having to bring up the Coaching Prefs dialog box.
