Thank you for trying ImageVice™ 2.0.1

ImageVice™ is an editor's choice award-winning color reduction filter for Adobe Photoshop presenting designers with a new technology that enables common multimedia format files, such as GIF, PICT, BMP, and PNG, to be made up to 70% smaller than previously possible.

ImageVice™ provides powerful and flexible color reduction for the best possible compression and the best possible image quality in multimedia images.

"Let me say that I LOVE ImageVice. Talk about speed savings. I smashed a banner from 13k to 3k with no quality loss! I swoon. I've even had some graphics come out measured in bytes. I swoon again!" - Raquel Stewart

"Just had the chance to put your new ImageVice demo through it's paces. AWESOME!! ImageVice did a better job of dithering the colors and reducing palette size than I had been able to manually editing the color table, and in less time." - Bill Martin

"I just wanted to say thank you SO MUCH for ImageVice.   It is truly a godsend. I've already used it on all of the images on our web site and it has dramatically decreased the load time.   The
images were all about 50% smaller that the original gifs." - Daniel Blackburn

To try out ImageVice™ 2.0.1:

The ImageVice™ demo is fully functional. There are no limitations on features or how it may be used for evaluation purposes.   However, if you use ImageVice™ for more than 30 days or on more than 100 images, whichever comes first, an increasing delay time will be added before each time it executes. There are no other functional limitations on the demo, so you have full opportunity to make the best use of everything ImageVice™ an do before you purchase.

Refer to the ImageVice™ FAQ, Quick Start Guide, and Manual for complete information about using ImageVice™.

To update your existing version of ImageVice™:

ImageVice™ 2.0.1 is a free update to version 2.0. ImageVice™ 2.0 users need simply to use their existing registration numbers to activate this version.

ImageVice™ 2.x is a major upgrade and not a free update to existing versions of ImageVice™. Your existing registration number to ImageVice™ 1.x will not activate this new version.

The upgrade to ImageVice™ 2.x is available from BoxTop Software, Inc. to all registered users of any previous version of ImageVice™ for $19.95 US. Original purchases made since January, 1999 qualify for a free upgrade to ImageVice™ 2.x. If you qualify for a free upgrade and have not already received your new registration number, email info@boxtopsoft.com

To purchase your upgrade to ImageVice™ 2.x directly from BoxTop Software, Inc. by phone call 1-601-263-5410 between 10 AM and 6 PM Central Standard Time, Monday through Friday.

You may also use the included BoxTop Registration application to make secure email purchase of the ImageVice™ 2.x upgrade, and other BoxTop Tools. Please launch the BoxTop Registration application to learn more about using it for purchasing BoxTop Software, Inc. products.

Purchasing ImageVice™ and other BoxTop Tools:

ImageVice™ is available directly from BoxTop Software, Inc. and on-line distributors using the Digital River commerce network, such as Cyberian Outpost and Download Warehouse, for only $49.95 USD.

The easiest and quickest way to purchase ImageVice™ and other BoxTop Tools is to use the included BoxTop Registration application to make credit card purchases by encrypted email.

Many other purchasing options are also available for your convenience. You can purchase all BoxTop Tools securely on-line at http://www.boxtopsoft.com with immediate delivery.

To purchase directly from BoxTop Software, Inc. by phone call 1-601-263-5410 between 10 AM and 6 PM Central Standard Time, Monday through Friday.

To purchase directly from BoxTop Software, Inc. by postal mail, send payment in US funds to:

BoxTop Software, Inc.
PO Box 2347
Starkville, MS, 39760
