

The Electronic Issue

The best thing next to your Macintosh

Welcome to the Mac Zone.

We are very pleased to present the very first Mac Zone UK Catalogue of products for the Apple Macintosh range of computers.

You may already have noticed from the front cover that this catalogue is a bit different to most of the existing catalogues in the marketplace.

We have produced this Catalogue with you, the user, in mind. No front page clogged with so called bargains, or cluttered pages that are hard to follow and non existent or useless indexes. Neither will you find a thousand or more products that nobody is really interested in.

What you will find is an "easy on the eye" format in two sections:

1. A display section by product types featuring more information on the products and many special offers and bundles which are put together by the Mac Zone to offer you a complete solution.

2. An alphabetical index section by both Publisher and Product Name, also giving the price as well as the page(s) on which the product is featured. This section is also useful for the user who doesn't want to look through the catalogue and just wants to buy something or check on the price.

We at the Mac Zone UK believe that the 200 or so products featured in our first Catalogue represent the best range of "across the board" items that Macintosh users will want to buy. We have also tried not to confuse you by offering several products that are very similar.

The prices we offer are very competitive.

We also believe in only providing complete solutions, so for instance when we offer a printer for sale, wherever possible, the price will include software drivers, a UK power cable and a cable to connect it to a desk top Macintosh. Where it is not possible or appropriate to include something, maybe there are a number of different options available, we will always try to offer those items at competitive prices.

If you like what we are offering, please let your friends and colleagues know about us. If you do not like the format or style of this Catalogue, or have any views that may help improve future editions, please let us know on **0800 393 696**.

Who are The Mac Zone

Formed in 1986 in Seattle, Washington USA, the Mac Zone is a division of Multiple Zones Inc. Now represented in over 20 countries worldwide, The Mac Zone has grown to be the world's second largest mail order company in its class.

The Mac Zone UK was formed in November 1993 as a joint venture between the US parent and a team of very experienced Macintosh professionals who cover the full spectrum of the skills required to run a very efficient and successful Macintosh Mail Order Company.

Whilst we obviously benefit from the fact that we are part of a very large operation, we work as an autonomous company and purchase in the UK, wherever possible, and design and produce our catalogue in house. This allows us total flexibility to take on new products and make new offers available to you, very quickly.

We welcome your views and would like to hear from you if you feel we could improve the service we offer or should add anything in terms of the product range.

With the experience the team has gained over the years, we believe we understand the things that are most important to our users and we strive to make sure that the service we offer is second to none.

Amongst our many accreditations, we are proud to be Authorised Apple Resellers.

The Mac Zone Guarantee

Wherever possible, we will only supply products sourced in the UK. However, unless otherwise stated, hardware and accessories come with a 12 month warranty and software carries a 120 day warranty on the media.

In the unlikely event that something you purchase from The Mac Zone should be defective, you should follow our returns procedure. Simply call us on 0800 393 696

and explain the problem. If we are unable to assist over the telephone, we will issue you with a Returned Material Authorisation (RMA) number and you should then return

the item to us complete with all accessories manuals and any protective packaging the item originally came with, clearly identifying the RMA number on the outside of the packaging.

On receipt of the returned item, we will verify the fault and repair or replace the item at our discretion. We cannot be held responsible for any damage caused due to poor packaging of returned items and we advise that you ensure that the goods are covered by insurance whilst in transit.

This guarantee does not affect your statutory rights.

AIR MILES

Whether or not you are already amongst the 3 million people who collect AIR MILES awards, you need to register with us to become a "Mac Zone AIR MILES collector". All you need to do is to telephone us on Freephone 0800 393 696. No purchase is necessary at registration, but you must be registered in order to receive AIR MILES awards, even if you register at the time of placing your order.

AIR MILES awards are available from several other companies as well as the Mac Zone and the AIR MILES awards that we provide can be combined with other AIR MILES awards that have accumulated electronically either on your AIR MILES statement or any other statement, or vouchers that you may have collected. All you need to do to ensure you

receive your AIR MILES awards is to inform the telesales operator that you are a registered Mac Zone AIR MILES collector.

Every mile that you collect is worth at least one mile of free air travel on the scheduled services of British Airways. You can also use your AIR MILES awards for a wide variety of other exciting travel and leisure opportunities including discounts on package holidays with most leading ABTA tour operators, cruises, ferry crossings and UK weekend breaks.

For free flights, you can choose from the widest range of flights from the UK to over 150 destinations on the British Airways international network. Below are some examples of how many AIR MILES awards are required for a free return flight from London:

Paris	450
Amsterdam	500
Nice	1300
Venice	1450
Athens	3000
Barbados	8300

So, every time you buy something from the Mac Zone you are even nearer to that free flight or holiday. To book your flights, hotel accommodation, car hire and insurance, at least 14 days in advance please, call 0293 515700 or for package holidays, cruises, ferry discounts and UK breaks call 0293 525550.

AIR MILES and the Flying Boat logo are trade-marks of AIR MILES International Holdings N.V.

Policies

These are important. Please be sure that you have read and understood the following section before you place an order with the Mac Zone.

- Visa and Access credit cards are accepted without surcharge.
- Your credit card is not charged until the day your order is shipped.
- If we have to part ship an order, carriage is only charged on the first consignment – subsequent part shipments will not carry a delivery charge. We will always try to let you know if an item is out of stock when you place your order.
- Personal cheques are welcome, but will need to be cleared before the goods are shipped. This may take up to 5 working days. Bankers Drafts and Building Society's own cheques are acceptable and are cleared immediately.
- Connect and Switch debit cards are cleared immediately, as are postal orders.
- Company cheques from U.K. Ltd companies are usually acceptable if accompanied by a written purchase order on the Company's letterhead.
- Education, Government or Corporate orders are acceptable subject to the institution's acceptance of our trading terms. Some orders may be liable to a surcharge; our telesales staff will inform you of this when you call to confirm prices.
- All prices quoted are exclusive of carriage and V.A.T.
- Prices and product availability are subject to change without notice.
- Special promotional offers, including AIR MILES, maybe withdrawn at any time without notice.
- All 'special offers', upgrades, and promotions are limited to available stock and may be governed by manufacturer's conditions.
- All products are covered by manufacturer's warranty.
- We are not responsible for typographical errors.
- All shipments in transit from the Mac Zone are covered by carrier's insurance. Receiver's signature will be required at time of receipt. Claims for non-delivery or damage to goods in transit must be made within 3 working days of expected delivery.
- Orders placed by 4.00 p.m. weekdays will be dispatched that day for expected delivery on Mainland UK the next **working** day, (barring system failures, etc – and some areas of the U.K. are excluded).
- The Mac Zone reserves the right to not supply orders, without having to give a reason.
- Competitively priced upgrades and cross grades may require proof of purchases of qualifying software.
- Any policy of the Mac Zone may change between the time of originating literature and your placing an order – do check with us that we still apply this version 94/4 of our policies.

All prices exclude VAT. E. & O.E.

Mac LC & LCII

- 68020/68030 16 MHz processor
- One bank of two slots
- 30 pin 80ns SIMMs required
- One video ram slot
- Optional Maths Coprocessor

Mac LCIII & LC475

- 68030/68LC040 25 MHz processor
- One memory slot
- 72 pin 80ns SIMMs required
- One/Two video ram slots
- Optional Maths Coprocessor

Mac IIfx & Performa 600

- 68030 32 MHz processor
- One bank of four slots
- 30 pin 80ns SIMMs required
- Two video ram slots
- Optional Maths Coprocessor (P 600)

Quadra 610 & Centris 610

- 68LC040 25/20 MHz processor
- Two independent slots
- 72 pin 80ns SIMMs required
- Two video ram slots
- Optional Maths Coprocessor

Quadra 650 & Centris 650

- 68040 33/25MHz processor with FPU
- Four independent memory slots
- 72 pin 80ns SIMMs required
- Two video ram slots

Quadra 800

- 68040 33 MHz processor
- Four independent memory slots
- 72 pin 60ns SIMMs required
- Two video ram slots

Quadra 900 & Quadra 950

- 68040 25/33 MHz processor
- Four banks of four slots
- 30 pin 80ns SIMMs required
- Two pairs of video ram slots

Power Mac 6100/60

- PowerPC 601 60 MHz processor
- One bank of two slots
- 72 pin 80ns SIMMs required
- Upgradeable video ram

Power Mac 7100/66

- PowerPC 601 66 MHz processor
- Two banks of two slots
- 72 pin 80ns SIMMs required
- Upgradeable video ram

Power Mac 8100/80

- PowerPC 601 66 MHz processor
- Two banks of two slots
- 72 pin 80ns SIMMs required
- Upgradeable video ram

Please Note:

Memory Prices change regularly – May we suggest that you call us for the latest prices

Memory for the complete Mac range including the amazing Power Macintosh

Why should I buy more memory?

More memory offers two major benefits

- It allows your Mac to run more powerful applications
- It increases system speed with fast access to more information

To take full advantage of today's feature packed (and power-hungry) publishing and graphics software, serious desktop publishers should consider 20MB of RAM. And if you work with large files in image editing applications like Photoshop, you'll need at least three times more RAM than the largest file you work with. With this much RAM, your Mac will be able to load the entire document and it's supporting files into memory. Without it, calculations will slow you down because you have to wait for data to be transferred from the hard drive – a much slower process

MACINTOSH COMPUTERS (30 PIN MEMORY – 80ns)			Air Miles
1X2MAC	1Mb 30 pin SIMM (2 Chip)	£35	4

Microsoft

Microsoft® Office Trade-in Pack

There will never be an easier way to move to a better office, especially for Works users.

It's easy to share the information between Microsoft Excel®, Microsoft® PowerPoint, and Microsoft® Word. And you can send messages in Microsoft Mail without leaving the application you're working in.

To be eligible to purchase Microsoft Office for Macintosh at the special Trade-in price you must be an existing user of any Macintosh application including any spreadsheet, word processor, presentation graphics program or integrated product. Proof of ownership of your current application must be provided, i.e. a photocopy of the front page of the manual.

Included in the package:

- **Microsoft Excel version 4.0**
- **Microsoft Word version 5.1**
- **Microsoft PowerPoint version 3.0**
- **Microsoft Mail version 3.1** (license only)

Also included in this package is a special upgrade offer for 50% off the price of the upgrade to the next version of Microsoft Office, which will include:

- **Microsoft Excel version 5.0**
- **Microsoft Word version 6.0**
- **Microsoft PowerPoint version 4.0**

Microsoft Office Trade-in Pack 31147 £218.95 25 AIR MILES

All prices exclude VAT. E. & O.E.

Soft Numbers Ltd

M.Y.O.B. v.3

The small business accounts package that has taken the Mac world by storm. M.Y.O.B is now in version 3. Highly praised by reviewers and described by the Financial Times as 'simply the best accounts package I have seen'. M.Y.O.B is an all-in-one package for all small business accounting applications.

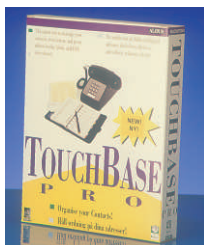

Invoices, statements, purchases, cheques, sales analyses, stock control, VAT, order processing, budgeting, profit and loss and a whole range of customisable reports - M.Y.O.B. has it all, plus management tools including cardfile database and To-Do-List.

This is the full U.K version

M.Y.O.B. v.3 31224
£149.95 20 AIR MILES

Aldus

TouchBase Pro

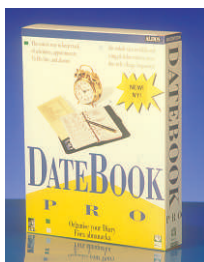

Touchbase Pro is the leading contact manager for the business or home. It lets users keep instant easy access to contacts and their history. A built in letter writer enables personalised letters to be created and merged with contact information.

TouchBase Pro 31103 £39.95 5 AIR MILES

Aldus

DateBook Pro

Datebook Pro combines a diary, calendar, scheduling, alarms and to-do lists to keep track of your activities. Schedules are shown at a glance in a number of formats. An instant busyness indicator helps locate free time quickly.

DateBook Pro 31104 £39.95 5 AIR MILES

Both these programs are multi-user so contacts and other information can be shared over a network. Printouts from both programs can be in Filofax format. The Mac Zone is offering both programs as a package and guarantee they are the full English versions.

DateBook Pro & TouchBase Pro 31105 £69.95 5 AIR MILES

One Stop

SoftKey

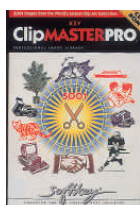

Key Cad Complete

Turns your Mac into a powerful design workstation or precision drafting tool. Key CAD's powerful floating point co-ordinate system automatically calculates distance and dimensions. Produce drawings, plans and layouts to perfect scale and accuracy whether you are an inventor, hobbyist, craftsman, electrician architect or contractor. Key CAD takes you step by step from conception to realisation.

Key Cad 31251 £38.95 5 AIR MILES

Key Clipmaster Pro CD Key Fonts

Over 5,000 exciting illustrations that you can use everyday, in memo's, newsletters, reports, invitations, brochures, catalogues and advertisements. Each illustration can be previewed

before importing into your work providing an essential visual database you can integrate into your Word Processor, Desktop Publisher, Paint or Draw application.

Key Clipmaster 31206 £38.95 5 AIR MILES

Key Fonts CD ROM

Use the incredible storage power of CD ROM to choose from 303 scalable Postscript and TrueType compatible versions of the most popular professionally used typefaces and display faces. Customise your work using your choice of fonts. Also included are fractions, legal marks, currency, mathematic, scientific impact symbols and more.

Key Fonts CD 31198 £38.95 5 AIR MILES

Nothing adds more impact to printed work than a variety of fonts. Key Fonts provides a professional library of the most popular fonts. Font disks are included for the Postscript format and for TrueType technology that allows you to scale fonts on-the-fly for both your screen and printer, giving you the best of both worlds. A dynamic catalogue of professional fonts bringing you 100 exciting new typefaces, fully scalable, Postscript and TrueType compatible WYSIWYG fonts for graphics, word processors, desktop publishing and much more.

Key Fonts 31221 £38.95 5 AIR MILES

More Key Fonts

Exploit the creative capabilities that the Macintosh is famous for with a brilliant professional library of 121 scalable Postscript and TrueType compatible WYSIWYG fonts, including 12 international character sets for hundreds of applications.

More Key Fonts 31199 £58.95 5 AIR MILES

All prices exclude VAT. E. & O.E.

Central Point Software

MacTools, Snooper & Alert

Want a simple way to find and fix disk problems? Want an instant way to recover trashed files? Want to protect your data from loss, theft, and disk crashes? Then you want **MacTools** version 3.0, the comprehensive collection of tools for disk repair, anti-virus, and backup protection.

Help is available - Fast!! If your Macintosh freezes, crashes or bombs, the problem may be a software conflict. Use **Alert!** before the event to isolate incompatibilities, prescribe a remedy or resolve the problem automatically.

For far less than the cost of a single service call, **Snooper** can diagnose virtually every facet of your Macintosh hardware. No technical experience required! Complete examination, instantly.

MacTools bundle 31158 £99.95 10 AIR MILES

Aridi

Initial Caps

A quality collection of clip art Initial Caps. All the graphics are provided in both black and white and full colour process (CMYK). Since the graphics are supplied in EPS format you can modify them (in any way you see fit) by using a compatible illustration application. Initial Caps sets 1 and 2 contain six different fonts which total 156 individual graphics in each set. Initial Caps Set 3 contains over 20 Mb of detailed graphics including full frames, borders, motifs and more.

Datawatch

SuperSet

SuperSet Utilities includes:

911 utilities is a comprehensive disk and file recovery solution combining an extensive trouble shooting guide and a collection of powerful utility programs. Recover damaged disks and files, isolate bad disk sectors, combine fragmented data into continuous files.

Virex, virus prevention, detection and treatment.

(see featured advert for details).

Complete Undelete, recovery of files deleted in the wastebasket. A quick, convenient and reliable method for recovering files that have thrown in the wastebasket.

Screenlink, easy remote access and control. Control one Macintosh's screen, mouse and keyboard from another Macintosh.

Citadel, award-winning disk and file security. Volume protection, floppy drive protection, screen locking, DES file encryption and file shredding.

This set of utilities represents astonishing value for money

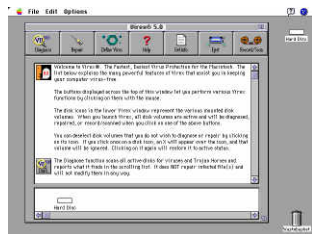

SuperSet Utilities 31297 £89.95 10 AIR MILES

Datawatch

Virex

The first comprehensive solution to the threat of Macintosh computer viruses. Not only does it tell you when there is a virus present, it will define and repair all files containing a known virus. It can also detect new or previously unknown viruses. If your machine is behaving badly with unexplained errors and bombs, it could be a virus. Make using Virex part of your safe Computing Practise. Once you have Virex you can take advantage of the Annual Subscription Service which ensures your Macintosh stays clean and healthy.

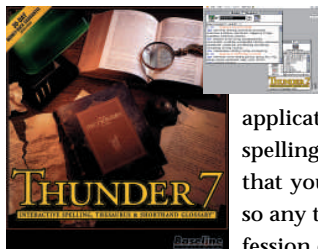

Virex version 5 is now 25+ times faster than SAM utilities.

Virex 31256 £49.95 5 AIR MILES

Baseline

Thunder 7

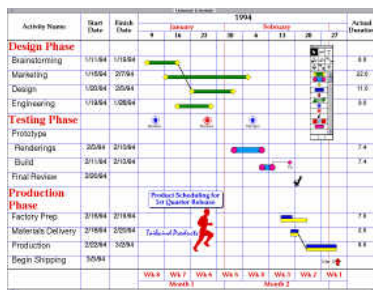

Checks the spelling in almost any document. It's always available from the menu bar, so no matter what application you are in you can check for spelling errors. One of it's main advantages is that you can create your own user dictionary so any technical terms that apply to your profession can added as you work and remain for ever more. It can either work interactively, or check a whole selection at once. Now you can get rid of those application specific dictionaries and recover some space. Thunder 7 includes full dictionary definitions and a complete thesaurus.

Also available are the Medical, Legal and technical dictionaries

Thunder 7 31353 £59.95 5 AIR MILES

Viatec

FastTrack Schedule™ .2.1

FastTrack Schedule is both a quick scheduler and a full project tracking system. Built-in outlining and progress tracking keep you informed. Custom bars, graphics, and floating text blocks let you create presentation-quality schedules.

FastTrack Schedule v.2.1 31298 £168.95 20 AIR MILES

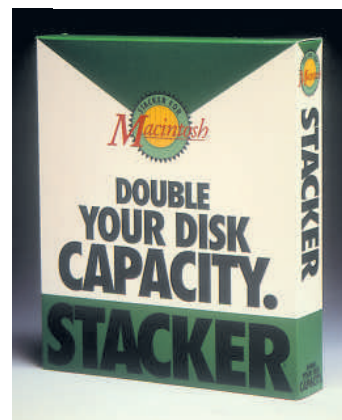

Stac Electronics

Stacker

STAC

Double Your Hard Disk Capacity

Introducing Stacker® for Macintosh, the first safe and transparent software for doubling your hard disk capacity. The patented LZS™ technology stores your data more efficiently without changing the way your Macintosh works – you just have more disk space available. It's completely safe and fully compatible with all your applications.

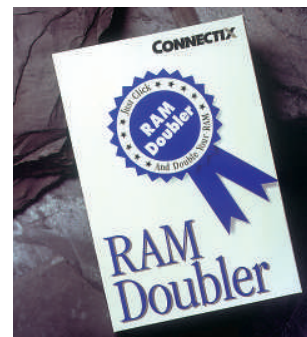

- **Doubles your hard disk capacity**
- **Foolproof installation**
- **Full compatible with all applications**
- **Supports all hard drives and removable cartridges**
- **You can remove stacker**
- **On-Line help**
- **Supports volumes with 2GB of compressed data**

Stacker 31299 £64.95 5 AIR MILES

Connectix

RAM Doubler

RamDoubler gives your Macintosh twice as much memory to open applications. You'll be rid of 'Out of Memory' messages for ever. The best thing about RAM Doubler is that it is easy to use. Just click to open your Ram. It's that fast, it's that easy. Its a system extension, so there's no need for adjustments or any special controls

- **Doubles your RAM**
- **Works with all applications**

RAM Doubler 31300 £54.95 5 AIR MILES

All prices exclude VAT. E. & O.E.

Philips

Brilliance 2010 Monitor

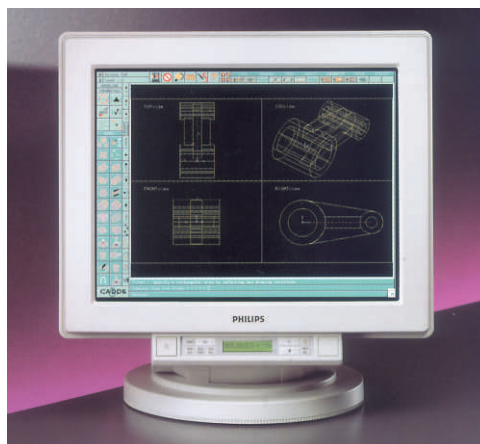

A High resolution low emission, autoscanned monitor which supports resolutions up to 1280*1024. The autoscanned capability means that it is compatible with a wide range of high-resolution video cards. The constant raster automatically maintains vertical image height for all display modes. The screen is a silica coated non-glare screen with anti-static treatment. Supplied with a tilt and swivel stand

MicroTek

MICROTEK Scanners

New ScanMaker IISP

The ScanMaker IISP comes with a DCR colour calibration/correction system included with it

DCR (Dynamic Colour Rendition) is the most accurate colour calibration system to be included with a flatbed scanner. DCR calibrates the ScanMaker IISP scanner to an industry standard colour calibration target, therefore reducing time spent calibrating the scanner and colour correcting images after each scan.

The ScanMaker IISP is bundled with the most powerful image manipulation software available today: Photoshop. Two versions are available, the entry-level version – bundled with the limited edition of Adobe Photoshop, or the professional version – bundled with the full version of Adobe Photoshop.

With an optical resolution of 300 * 600 dpi at 24-Bit, ScanMaker IISP offers excellent quality even for output on imagesetters. Due to its one-pass technology, ScanMaker IISP will increase your productivity.

The installation requires no expertise and is very straight forward.

All MICROTEK scanners are packaged complete with a Desktop Mac to SCSI cable, power cable, terminator and installer software.

ScanMaker IISP with limited edition

The Ultimate Scanner and Data Storage Bundle

Buy a MicroTek ScanMaker IISP with limited edition Photoshop plus a Bernoulli Multidisk 90 for the bargain price of only £995.95 no part exchange necessary. *(All cables and one 90MB disk included)*

ScanMaker IISP and Multidisk 90 Bundle 31331 £995.95 130 AIR MILES

From Iomega and The Mac Zone The Great Storage Media Trade-In

Introducing a great way to get more from your storage device – Trade it in for a brand new Bernoulli Multidisk 150.

Just give us any floppy disk drive, hard disk drive, tape or SyQuest device, whether or not it is working order, and we will give you in return a superb Bernoulli Multidisk 150, complete with a 150 Mb disk for only **£399.95**.

Or you may wish to choose the double capacity Bernoulli dual Multidisk for only **£699.95**.

With effective access times of only 18ms, these devices can be used as your main storage device, instead of your hard disk drives, or can simply be used as a back up device.

d2

SyQuest Drives

Technology at it's best is provided by the brilliant range of d2 data storage drives and back-up systems. d2 SyQuest drives combine the speed of a traditional hard disk drive with the convenience and flexibility of a floppy drive. SyQuest Technology has become the worldwide standard in the removable re-writable disk industry with more than

44MB Classic SyQuest drive

44MB Classic SyQuest drive
31266 £259.95 30 AIR MILES

800,000 drives and 5 million cartridges sold to date. The d2 SQ40 uses the widely accepted standard 44 MB cartridge, which provides a fast and reliable solution to backing-up data and/or transporting large data files from one location to another.

The d2 SQ80C offers all the benefits of the SQ40 plus the ability to read and write to 88MB cartridges, effectively doubling the storage capacity of the device. The SQ80C will also read and write to 44 MB cartridges.

d2

Magneto Optical

Magneto Optical rewritable technology is today's answer to medium size file storage and back-up. Data is written to an optical cartridge by a laser beam and since it can be conserved for over 15 years it is an ideal medium for archiving.

The low cost of the cartridges make it the most cost effective back-up and storage systems available.

MO-128 MO Designer 31270
£699.95 90 AIR MILES

MO-128 Classic

MO-128 MO Classic 31271
£699.95 90 AIR MILES

All d2 Magneto Optical drives come complete with a UK mains lead, Mac to SCSI cable, SCSI terminator, English user manual, driver software and one cartridge.

d2

Hard Disks

d2 hard disk drives come complete with driver d2 software which optimises performance and assures total compatibility with the entire Macintosh range. These drives include leading technologies from Quantum®, IBM® and Seagate®. The d2 range offers reliable and high performance products and meets the needs of the most demanding applications in terms of capacity, seek time and transfer rate.

500 MB Designer

All these drives are available as either Designer models, or the Classic zero footprint design. The Designer products have been created by Neil Poulton, in collaboration with d2 and are unique in both their appearance and their light weight.

All d2 hard drives come complete with a UK mains lead, Mac to SCSI cable, SCSI terminator, English user manual, and driver software.

d2

DAT Drives

DATs are dedicated to backup. They ensure the integrity of data for the server as well as for users on the network. d2 deliver DATs with Retrospect Remote 4, the worldwide standard for backup on Macintosh. It enables automatic backups and adapts to your specific needs for data security.

DATs combine very high performance (12MB/minute) with an exceptional low cost per megabyte for the media.

The d2 DAT 2-8000 incorporates a compression chip on the controller board. With this, up to 8GB of data can be stored on a single cartridge.

d2-DAT 2-8000

d2-DAT 2-8000 31277 £1,149.95 150 AIR MILES

All d2 DAT drives come complete with a mains lead, Mac to SCSI cable, English user manual, Retrospect software, cleaning cartridge and one standard DAT cartridge.

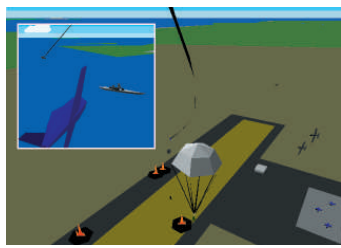

All d2 products come complete with a full one year warranty, apart from the Speed2 1 GB and Speed2 2 GB hard drives which both have a 5 year warranty.

Graphic Simulations FA18 Hornet

The hottest combat flight simulator in the skies. Take control of a FA/18 and flight training missions of Duty. amazingly smooth graphics, detailed missions, gameplay and awe inspiring scenery combine with a realistic simulation to give the best combat simulator yet. Up to 4 pilots can battle it out over a network.

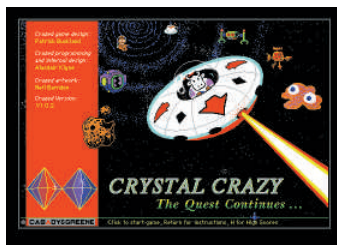

Graphic Simulations Hellcats

You are the pilot of the Pacific Theater's most notorious fighter aircraft - The F6F Hellcat. Take off from your carrier on a mission to intercept enemy aircraft, bomb strategic targets and strafe enemy airfields. Hellcats utilises new simulation technology resulting in truly high-speed graphics which provide a sense of fluid motion never seen before seen in a flight simulator.

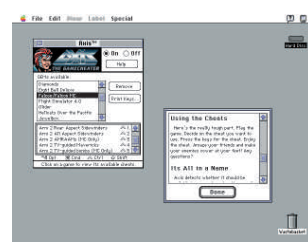

Extra Missions also available.

Casady and Greene Crystal Crazy

Now there are more crystals to collect in addition to to pool balls, utterly stupid pictures to erase and fragile ornaments to smash. Accomplish these entirely pointless tasks while avoiding the eggs that hatch into space bunnies, spring loaded boxing gloves and pulsating Zinkelflashoxicationizers! You'll be appalled at how much time you'll waste on this game - but you'll love every minute of it.

Baseline Axis Games Cheater

This is the ultimate game cheater. With it installed you can just hit a button within your favourite game and get extra lives, fuel, ammo, money or even advance levels. Been stuck on one particular nasty level? Let AXIS solve your problems and get back to enjoying the game!

Works with over 50 of the top selling games!

Bröderbund Myst

This is a huge surrealistic adventure rendered in breathtaking 3D. Can you escape the worlds of Myst? You'll need all your intelligence and wits to solve the puzzles and return yourself to the real world. Navigation is via simple mouse clicks and the screen updates are much faster than similar CD based games.

Software Heaven Oids

Relive your miss-spent youth with this horizontally scrolling shoot-em-up. The aim as we all should know, is to fly deep into enemy territory and rescue your comrades. Hostile fire from the bases and really horrible flying things present the mild hazard of losing your ship and with it your hopes and dreams of returning to the Mothership. Oids is a fast, fun colourful game with superb graphics and sound.

Callisto Super Maze Wars

The coolest network game since Spectre. Up to 8 people (human or computer) can battle it out against each other. There are 5 different games to choose from covering everything from simple 'shoot everything' right the way to 'strategy' and 'cunning'. Makes an ideal single user game as well with the Macintosh controlling the other players.

Callisto Spin Doctor

This has to be a revolution in puzzle games! Use simple swings, flips and bounces to navigate through the increasingly devious and mind bending levels. You'll need maximum ingenuity to bypass the nasty wands, moving doors, fuses, sparks, bombs and acid pools. Easy to learn yet long lasting, elegant and addictive.

StarPlay Productions

Crystal Caliburn™ Pinball

From the developer of the award winning
Tristan™ and Eight Ball Deluxe™

The 3rd in a series of pinball simulation games for the Mac. This version is designed in the style of machines of the 80's. It features 2 realistic 3D ramps, powerful flippers, an underground tunnel and 3 ball multiplayer.

The games theme is the Legend of King Arthur. To reach the highest scores, players must win the Holy Grail and bring it to Camelot Castle. This takes quick reflexes, accurate shooting, strategy, and a little old-fashioned luck!

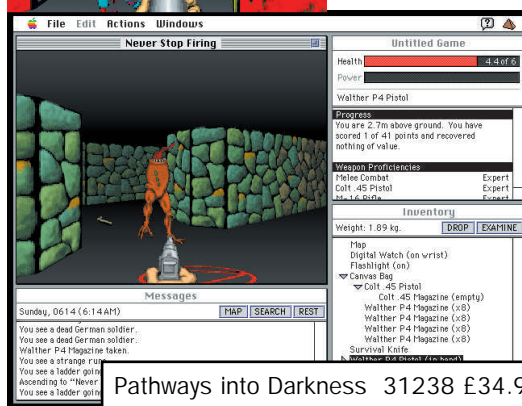

Crystal Caliburn 31191 £29.95 3 AIR MILES

Bungie

Pathways into Darkness

Pathways into Darkness gives you real time 3D and an ancient pyramid to explore. Its up to you to save the world from an ancient deadly god that's re-awoken. With an excellent user interface and action packed graphics and other cool features like infra-red goggles make this a must buy for everyone!!

Pathways into Darkness 31238 £34.95 4 AIR MILES

Instant Access to

Entertainment CD

With the purchase of the Instant Access to Entertainment CD, you receive an unlocked version of Atrieds' new game called Breakline. This game is a cross between breakout, pinball and miniature golf. Also when the disk is registered you may choose a second game of your choice from the following: ZOA, Hellcats, Pararena, Crystal Crazy, Spaceway 2000 or Glider. All you have to do is telephone the Instant Access Enablement Centre and they will immediately un-lock it for you. This CD allows you to try Macintosh games, utilities and entertainment from a range of

130 different products from your desktop at any time of the day or night. Software programs are purchased directly from the CD, instantly unlocked and immediately downloaded from the CD to your computers' hard drive.

IA Entertainment CD 31139 £29.95 3 AIR MILES

Voyager

A Hard Days Night

Released in 1964, A Hard Day's Night captures the Beatles just before their first triumphant tour of America, when 'Rock and Roll' meant racy music and an even racier lifestyle.

The CD-ROM contains

All 90 minutes of the original movie, complete and uncut, great Beatles tracks, the original script including cut scenes and improvised dialogue, an essay by critic Bruce Eder on the Beatles their music and the film, the theatrical trailer, the 1982 movie re-release prologue and clips from the director Richard Lester early work.

A Hard Days Night 31310 £24.95 3

Realworld

Xplora 1

At its simplest Xplora 1 is a trip through the world of Peter Gabriel with clips and music from his latest album US. However the CD expands allowing the user the ability to play musical instruments from around the world and also to be able to re-mix one of the tracks in the Real World studio. The best example of multimedia yet !

Introducing The New MessagePad 110

- Communicate and synchronise information with PCs running Microsoft® Windows™ or with Apple™ Macintosh™ computers using the optional Connection Kit.
- Format your letters, faxes and documents from your notes.
- Organise and store names, addresses and telephone/fax numbers.
- Schedule the events you don't want to miss on the Newton Diary and remind you of things you need to do.
- Fax using the optional Newton Fax Modem from any standard telephone point.
- Handwrite directly onto the screen, and transform it into clear text and tidy up your sketches.
- Expand the capacity of your Newton with optional PCMCIA storage cards. Or use one of the many software titles now available
- Assist you in a variety of tasks. For example, write 'fax John' and, on command, the Assist function will draw up a fax front sheet, find John's fax number and send the fax.
- Slim-line design – with protective cover and compact stylus.
- A full 1 MB RAM.
- Deferred character recognition – so you can store notes in your own handwriting then convert them into text later.
- Battery life up to 50 hours continuous use.

What will your Newton do for you?
