

ORDERING INFORMATION

Shareware Version

This version of Zombie Wars actually contains the complete game.

You can unlock the rest of the game by registering for only US\$24.95 using the SalesAgent registration system.

To register the game select Help | Register and follow the registration instructions.

You can pay by Visa, Mastercard, Discover, American Express or by check (mail only).

Please note that by registering you are buying a license to install Zombie Wars on only ONE machine.

If you register Zombie Wars on this machine then the full game will only be playable on this machine.

If a copy is given to a friend or moved to another machine, SalesAgent recognizes that it is running on a new machine and reverts Zombie Wars to the shareware version.

Your friend can play the shareware level until they decide to register Zombie Wars on their own machine.

Commercial Version

The commercial version is exactly the same as the SalesAgent version except that you can install the commercial version on another machine.

However the commercial license grants you the right to install the game on one machine only.

You may re-install on another computer if you delete it from your old computer.

For a list of retailers nearest you that stock the commercial version of the game, or to order a commercial version direct, contact:
